SUBJECT

Proposed PCSC Performance Framework

APPLICABLE STATUTE, RULE, OR POLICY

I.C. §33-5202A(4) I.C. §33-5205B I.C. §33-5209A

BACKGROUND

Idaho's 2013 charter school legislation contains a new provision requiring each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the Performance Certificate.

The measurable performance targets contained within the Framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement.

The Performance Framework (specifically the Mission-Specific section and, in some cases, the Financial section) will be individualized for each school and incorporated into the school's Performance Certificate. The Framework is designed for use with non-alternative schools; a modified Framework for alternative schools will need to be developed at a later date.

At the June 13, 2013, and August 15, 2013, PCSC meetings, the PCSC considered drafts of a Performance Framework consisting of standardized Academic, Operational, and Financial measures applicable to all schools, as well as a Mission-Specific section to be individualized for each school. The draft Framework was based on PCSC staff research encompassing NACSA's Core Performance Framework and Guidance, as well as stakeholder input and the Frameworks used by a number of authorizers in other states whose evaluation processes have been established for an extended period.

PCSC staff facilitated roundtable discussions with stakeholders on May 23, 2013; July 9, 2013; August 5, 2013; and August 26, 2013 to solicit feedback from stakeholders regarding the Performance Framework drafts. Additionally, stakeholders were invited to contact the PCSC office with written or verbal comments regarding the drafts, which were posted on the PCSC website from June 6, 2013, to the present. Opportunity for public comment was provided during the two, regular PCSC meetings during which drafts were discussed.

DISCUSSION

The proposed Performance Framework included with these materials incorporates both PCSC and stakeholder input. A document outlining the revisions made since the August 15, 2013, PCSC meeting is also included.

Two, significant modifications agreed upon during the most recent stakeholder roundtable are reflected in the proposed Framework:

- The relative weights of the Academic section and the Mission-Specific section shifted from 67% and 33%, respectively, to 60% and 40%, respectively. The increased weight on Mission-Specific measures emphasizes the importance of charter schools' unique missions and the collection of data with regard to the educational impact of those missions.
- Schools are offered an opt-out option from the Mission-Specific section. This option would be available only for the first Performance Certificate term, and only to schools approved to open in fall 2014 or earlier. Schools choosing to opt out of Mission-Specific measures for their first term would see the weight of those measures placed instead on the Academic section, which would then become the single, primary factor considered for purposes of renewal or non-renewal. (The Operational and Financial sections would remain secondary except in egregious cases.)

The purpose of this recommendation is to recognize that, while Mission-Specific measures are critically important, they may be difficult and timeconsuming to develop. Some schools may require additional time in which to research and create the quality measurement tools necessary for measuring the qualitative factors that make them unique.

IMPACT

If the proposed Performance Framework is adopted by the PCSC, it will serve as a template for all PCSC-authorized schools' Frameworks. Staff will begin working with schools on the individualized sections of the Framework.

STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends that the PCSC adopt the proposed Performance Framework.

COMMISSION ACTION

A motion to adopt the proposed Performance Framework as submitted.

OR

A motion to adopt the proposed Performance Framework with the following modifications: ______.

Moved by _____ Seconded by _____ Carried Yes ____ No ____

THIS PAGE IS LEFT INTENTIONALLY BLANK

August 30, 2013 Performance Certificate Revisions: August 15, 2013 - August 28, 2013

Section	Change(s)	Reasoning
4.D	Amendment of "default" to "deficit" with regard to deficit protection clauses in management contracts.	Request by stakeholders for phrasing better aligned with their contracts.
4.F	Addition of "full-time" in front of "employees" in second sentence.	Acknowledgement of standard procedure of providing benefits to full-time, and not necessarily to all, employees.
8.A	Deletion of first sentence and the words "control of" in the second sentence.	Clarify that the Performance Certificate does not create a relationship between the parties.

PUBLIC CHARTER SCHOOL COMMISSION - PERFORMANCE FRAMEWORK

Name of School:	Year Opened:	Operating Term:	Date Executed:

Introduction

Idaho's charter school legislation requires each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations and terms of the performance certificate.

The measurable performance targets contained within the framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement. This Performance Framework was adopted by the Public Charter School Commission (PCSC) on [date] and is intended for use with non-alternative public charter schools authorized by the PCSC.

Performance Framework Structure

The Performance Framework is divided into four sections: Academic, Mission-Specific, Operational, and Financial. The Academic and Mission-Specific sections comprise the primary indicators on which most renewal or non-renewal decisions will be based. The Operational and Financial sections contribute additional indicators that will, except in cases of egregious failure to meet standards, be considered secondary.

Academic:

A high percentage (60%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of academic measures. These measures are the same for all non-alternative schools. The "Meets Standard" rating for each measure is designed to align closely with state minimum standards as established in Idaho's ESEA waiver and Star Rating System.

Mission-Specific:

A significant portion (40%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of mission-specific measures. These measures may be academic or non-academic in nature, but must be objective and data-driven. The number and weighting of mission-specific measures should be established during one-on-one negotiations between the school and authorizer.

During their first Performance Certificate term only, schools authorized to open in or before Fall 2014 may choose to opt-out of the Mission-Specific section of the framework. Schools choosing to opt out of Mission-Specific measures for their first term agree that the weight of those measures will be placed instead on the Academic section, which then becomes the single, primary factor considered for purposes of renewal or non-renewal.

Operational:

Operational indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the operational section, this score should not be used as the primary rationale for non-renewal unless the non-compliance with organizational expectations is severe or systemic. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal.

PROPOSED PERFORMANCE FRAMEWORK

Financial:

Financial indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the financial section, this score should not be used as the primary rationale for non-renewal unless the school's financial state at the time of renewal is dire. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal. The PCSC may also elect to renew a financially troubled school that is clearly providing a high quality education, but notify the SDE of the situation so that the payment schedule may be modified in order to safeguard taxpayer dollars.

Accountability Designations

Calculation of the percentage of eligible points earned for each school will guide the determination of that school's accountability designation: Honor, Good Standing, Remediation, or Critical. The accountability designation will, in turn, guide the PCSC's renewal or non-renewal decision-making. Measures for which a school lacks data due to factors such as grade configuration or small size will not contribute to that school's accountability designation. The PCSC will consider contextual factors affecting a school's accountability designation when making renewal or non-renewal decisions.

Honor:

Schools achieving at this level in all categories (academic, mission-specific, operational, and financial) are eligible for special recognition and will be recommended for renewal. Replication and expansion proposals are likely to succeed. The Framework places schools that earn 75-100% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 5-star schools, high-range 4-star schools with solid mission-specific outcomes, and mid-range 4-star schools with strong mission-specific outcomes to receive an honor designation. Schools that fall into this point-percentage category but have poor operational and/or financial outcomes will not be eligible for an honor designation.

Good Standing:

Schools achieving at this level will be recommended for renewal; however, conditional renewal may be recommended if operational and/or financial outcomes are poor. Replication and expansion proposals will be considered. To be placed in this category, schools much receive the appropriate percentage of the combined academic and mission-specific points possible and have at least a 3-star rating. The Framework places schools that earn 55-74% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star or 4-star schools with solid mission-specific outcomes, or 5-star schools with poor mission-specific, financial, and/or operational outcomes to receive a good standing designation. Although 2-star schools with strong mission-specific outcomes could fall into this point-percentage range, they would not be eligible to receive a good standing designation due to their star ratings; the Framework is drafted thus in recognition of Idaho's statutory provision that the performance framework shall, at a minimum, require that each school meet applicable federal and state goals for student achievement.

Remediation:

Schools achieving at this level may be recommended for non-renewal or conditional renewal, particularly if operational and/or financial outcomes are poor. Replication and expansion proposals are unlikely to succeed. The Framework places schools that earn 31-54% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star schools with poor mission-specific outcomes, 2-star schools, or 1-star schools with strong mission-specific outcomes to receive a remediation designation.

Critical:

Schools achieving at this level face a strong likelihood of non-renewal, particularly if operational and/or financial outcomes are also poor. Replication and expansion proposals should not be considered. The Framework places schools that earn less than 30% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 1-star schools or 2-star schools with poor mission-specific outcomes to receive a Critical designation.

PROPOSED PERFORMANCE FRAMEWORK

	INDICATOR 1: STATE AND FEDERAL ACCOUNTABILITY						
		Result (Stars)	Points Possible				Points Earned
Neasure 1a	Is the school meeting acceptable standards according to existing state grading or rating systems?						
verall Star Rating		5	25				
	Exceeds Standard: School received five stars on the Star Rating System	4	20				
	Meets Standard: School received three or four stars on the Star Rating System	3	15				
	Does Not Meet Standard: School received two stars on the Star Rating System	2	0				
	Falls Far Below Standard: School received one star on the Star Rating System	1	0				
							0.00
lotes	Stakeholder comment indicates general consensus that the PCSC's minimum to "meet standard" should coincide with						
	Idaho's minimum standard under the ESEA waiver; the ratings throughout this framework presently reflect this standard.						
	This measure is weighted lightly to reflect the fact that other measures below are based on different aspects of the same						
	data that contributes to the overall star rating. Categorizing both 3 and 4 star results as "meets standards" but offering						
	more points to 4 star schools rewards the higher achievers while still acknowledging the success of 3-star schools. The						
	possible points (0) for "does not meet" and below sets a floor at 3 stars.						
Aeasure 1b	Is the school meeting state designation expectations as set forth by state and federal accountability systems?	Result	Points Possible				Points Earned
tate Designations	· · · · · · · · ·						
	Exceeds Standard: School was identified as a "Reward" school.	Reward	25				
	Meets Standard: School does not have a designation.	None	15				
	Does Not Meet Standard: School was identified as a "Focus" school.	Focus	0				
	Falls Far Below Standard: School was identified as a "Priority" school.	Priority	0				
							0.00
lotes	In this draft, this measure is weighted lightly to reflect the fact that state designations are based heavily on the star rating						
	already accounted for in Measure 1a. This measure adds value to the framework becuase it reflects additional detail.						
	The needible points (0) for "door not most" and below sets a floor recognizing that ask cals identified as "focus" or						
	The possible points (0) for "does not meet" and below sets a floor recognizing that schools idenitified as "focus" or "priority" are not mosting minimum state standards.						
	The possible points (0) for "does not meet" and below sets a floor recognizing that schools idenitified as "focus" or "priority" are not meeting minimum state standards.

Measure 3g Subgroup Growth	Is the school increasing subgroup academic performance over time?	Result (Percentage)	Points Possible	Possible in this Range	Percentile Targets	Percentile Points	Points Earned
Combined Subjects	Exceeds Standard: School earned at least 70% of possible points in SRS Accountability Area 3.		76-100	25	70-100	31	0.00
combined subjects	Meets Standard: School earned 45-69% of possible points in SRS Accountability Area 3.		51-75	25	45-69	25	0.00
	Does Not Meet Standard: School earned 31-44% of possible points in SRS Accountability Area 3.		26-50	25	31-44	14	0.00
	Falls Far Below Standard: School earned fewer than 30% of possible points in SRS Accountability Area 3.		0-25	25	1-30	30	0.00
							0.00
Notes							
	Subgroup growth is combined into a single cagegory as a practical measure due to the small size of many of Idaho's public						
	charter schools. The percentages used in this draft are based on a review of the percentage of subgroup points earned by						
	PCSC-authorized schools in 2012. 1-2 star schools generally received 15%-35% of the possible points; 3 star schools						
	received 40%-60%, 4 star schools received 50-75%, and the 5 star school received 80%. Although the "meets standard"						
	rating category is broad, the scoring system is designed to reflect where in the range an individual school falls.						
	INDICATOR 4: COLLEGE AND CAREER READINESS						
Measure 4a	Are students participating successfully in advance opportunity coursework?	Result	Points Possible				Points Earned
Advanced Opportunity							
Coursework	Exceeds Standard: School earned 5 points in SRS Post-Secondary Content Area: Advanced Opportunity	5	50				
	Meets Standard: School earned 3-4 points in SRS Post-Secondary Content Area: Advanced Opportunity	3-4	30				
	Does Not Meet Standard: School earned 2 points in SRS Post-Secondary Content Area: Advanced Opportunity	2	10				
	Falls Far Below Standard: School earned 1 or fewer points in SRS Post-Secondary Content Area: Adv Oppty	1	0			-	
Notes	As drafted, these ratings reflect both participation and successful completion (C or better) as reported in the SRS.						0.00
	Participation and successful completion could be accounted for as separate measures.

	Senemmark on an entrance of placement exam.	-	0			-	0.00
Notes	Idaho will begin including this measure in the SRS in 2013. Idaho's targets in this area will increase annually between until						0.00
	the 2014-15 school year. This draft addresses the 2013-2014 targets in measure 4a2a and the 2014-2015 targets in Measure						
	4a2b. Rather than varying points across categories, this measure has set points possible. The reason for this approach is						
	statistical in nature - the formula used to allow for variable scores within a category would not function properly on this						
	indicator due to the substantial size of the top category.						
	manator due to the substantial size of the top category.						

Measure 4b2	Does students' performance on college entrance exams reflect college readiness?	Result	Points Po
College Entrance Exam Results	Exceeds Standard: Effective in 2014-15 and thereafter, at least 45% of students met or exceeded the college readiness benchmark on an entrance or placement exam.	5	50
	Meets Standard: Effective in 2014-15 and thereafter, between 35-44% of students met or exceeded the college readiness	2.4	
	benchmark on an entrance or placement exam. Does Not Meet Standard: Effective in 2014-15 and thereafter, between 30-34% of students met or exceeded the college	3-4	30
	readiness benchmark on an entrance or placement exam. Falls Far Below Standard: Effective in 2014-15 and thereafter, fewer than 30% of students met or exceeded the college	2	10
	readiness benchmark on an entrance or placement exam.	1	0
Notes			
Measure N/A	College Entrance Exam Participation	Result	
	Exceeds Standard: Meets Standard: Does Not Meet Standard: Falls Far Below Standard:		
Notes	Idaho will begin including this measure in the SRS in 2013. However, detailed information regarding how the data will be reported is not accessable at this time. The PCSC could, with stakeholder input, modify this framework in the future to include this measure as NACSA recommends.		
Measure 4c	Are students graduating from high school?	Result (Percentage)	Possible
Graduation Rate	Exceeds Standard: At least 90% of students graduated from high school.		39-5
	Meets Standard: 81-89% of students graduated from high school.		26-3
	Does Not Meet Standard: 71%-80% of students graduated from high school. Falls Far Below Standard: Fewer than 70% of students graduated from high school.		14-2 0-1
Notes	The ratings above for "exceeds" and "meets" are consistent with the SRS requirements to earn 5 and 4 stars, respectively,		01
	and are 1% different (higher) from NACSA's recommendations. A 71-80% graduation rate would earn 3 stars; NACSA		
	recommends that a 70-79% graduation rate be rated "does not meet." This presents an opportunity for the PCSC to consider whether it believes public charter schools should meet a higher standard than other public schools; stakeholder comment indicates a strong preference for PCSC minimums to meet state minimum requirements.		
	PCSC staff remains in conversation with the SDE regarding this measure. The ESEA waiver states that "in 2013-2014, Idaho		
	will switch to the cohort-based graduation rate and reset the graduation rate goal at that time." The draft performance certificate included with the June 13, 2013, PCSC workshop materials contains a provision indicating that the PCSC may		
	update its performance standards to coincide with changes in state requirements; this is a likely situation in which such updates will become necessary.		

updates will become necessary.

NAME OF SCHOOL --- OPERATIONAL FRAMEWORK

	INDICATOR 1: EDUCATIONAL PROGRAM		
Measure 1a Implementation of	Is the school implementing the material terms of the educational program as defined in the performance certificate?	Result	Points Possible
Educational Program	Meets Standard: The school implements the material terms of the mission, vision, and educational program in all material respects and the implementation of the educational program reflects the essential elements outlined in the performance certificate, or the school has gained approval for a charter modification to the material terms.		25
	Does Not Meet Standard: School has deviated from the material terms of the mission, vision, and essential elements of the educational program as described in the performance certificate, without approval for a charter modification, such that the program provided differs substantially from the program described in the charter and performance certificate.		0
Notes	The purpose this measure (and others under this indicator) is to protect public interests by ensuring that the school's educational program is "as advertised." In order to avoid interfering with school autonomy, the PCSC should consider only whether or not the school is implementing the essential elements of the educational program, with an expectation that the school exhibits fidelity to the program. This is not intended to be a qualitative review of how well the school is implementing the program, or how effective the program is (those elements will be reflected in the Academic Framework), but rather, on whether or not the program provided is consistent with that described in the charter and performance contract. Although the scoring mechanism included with this draft includes points for Operational measures, the total number of Operational points earned is intended to be calculated and considered seperately from the combined Academic and Mission-Specific points. This is because the bulk of an authorizer's renewal decision-making should be based on Academic and Mission-		
	Specific outcomes; Operational and Financial indicators should be secondary, providing additional information on which to base a decision regarding a school whose Academic and/or Mission-Specific results are marginal. Only in cases of egregious Operational or Financial deficincies should these indicators serve as the primary rationale for non-renewal.

Measure N/A Management Accountability	Is the school holding management accountable?	Result	Points Possible
	 Meets Standard: The school materially complies with applicable laws, rules, regulations, and provisions of the performance certificate relating to the oversight of school management, including but not limited to: For ESPs maintaining authority over mangement, holding it accountable for performance as agreed under a written performance agreement, and requiring annual financial reports of the ESP For Others oversight of management that includes holding it accountable for performance expectations which may or may not be agreed to under a written performance agreement. Matters of non-compliance, if any, are minor and quickly remedied, with documentation, by the governing board. 		
	Does Not Meet Standard: The school exhibits frequent and/or significant failure to materially comply with applicable laws, rules, regulations, and provisions of the performance certificate relating to the oversight of school management; and/or matters of non-compliance are not quickly remedied, with documentation, by the governing board.		
Notes	This measure is recommended by NACSA. However, the PCSC may wish to discuss, with stakeholder input, whether it prefers to eliminate this measure in order to remain more distant from the board's oversight of its management (whether via an ESP or individual), focusing instead of holding the school accountable for the results and compliance that ultimately reflect the quality of management.		
Measure 3b Reporting Requirements	Is the school complying with reporting requirements?	Result	Points Possible
neporting nequilements	Exceeds Standard: The school materially complies with applicable laws, rules, regulations, and requirements of the performance certificate relating to relevant reporting requirements to the PCSC, the SDE, and/or federal authorities, including but not limited to: accountablility tracking; attendance and enrollment reporting; compliance and oversight; additional information requested by the authorizer.		25
	Meets Standard: The school largely exhibits compliance with applicable laws, rules, regulations, or provisions of the performance certificate relating to relevant reporting requirements to the PCSC, the SDE, and/or federal authorities. Instances of non-compliance are minor and quickly remedied, with documentation, by the governing board.		15
	Does Not Meet Standard: The school exhibits frequent and/or significant failure to materially comply with applicable laws, rules, regulations, and provisions of the performance certificate relating to relevant reporting requirements to the PCSC, the SDE, and/or federal authorities; and/or matters of non-compliance are not quickly remedied, with documentation, by the governing board.		0

Measure 4a Student Rights	Is the school protecting the rights of all students?	Result	Possible
	Exceeds Standard: The school materially complies with applicable laws, rules, regulations, and requirements of the performance certificate relating to the rights of students, including but not limited to: policies and practices related to recruitement and enrollment; the collection and protection of student information; due process protections, privacy, civil rights, and student liberties requirements; conduct of discipline.		25
	Meets Standard: The school largely exhibits compliance with applicable laws, rules, regulations, or provisions of the performance certificate relating to the rights of students. Instances of non-compliance are minor and quickly remedied, with documentation, by the governing board.		15
	Does Not Meet Standard: The school exhibits frequent and/or significant failure to materially comply with applicable laws, rules, regulations, and provisions of the performance certificate relating to the rights of students; and/or matters of non-compliance are not quickly remedied, with documentation, by the governing board.		0
Notes			
Measure 4b Credentialing	Is the school meeting teacher and other staff credentialing requirements?	Result	Points Possible
	Exceeds Standard: The school materially complies with applicable laws, rules, regulations, and requirements of the performance certificate relating to state and federal certification requirements.		25
	Meets Standard: The school largely exhibits compliance with applicable laws, rules, regulations, or requirements of the performance certificate relating to state and federal certification requirements. Instances of non-compliance are minor and quickly remedied, with documentation, by the governing board.		15
	Does Not Meet Standard: The school exhibits frequent and/or significant failure to materially comply with applicable laws, rules, regulations, and provisions of the performance certificate relating to state and federal certification requirements; and/or matters of non-compliance are not quickly remedied, with documentation, by the governing board.		0
Notes			
Measure 4c Employee Rights	Is the school complying with laws regarding employee rights?	Result	Points Possible
	Exceeds Standard: The school materially complies with applicable laws, rules, regulations, and requirements of the performance certificate relating to employment considerations, including those relating to the Family Medical Leave Act, the Americans with Disabilities Act, and employment contracts.		25
	Meets Standard: The school largely exhibits compliance with applicable laws, rules, regulations, or requirements of the performance certificate relating to employment considerations or employee rights. Instances of non-compliance are minor and quickly remedied, with documentation, by the governing board.		15
	Does Not Meet Standard: The school exhibits frequent and/or significant failure to materially comply with applicable laws, rules, regulations, and provisions of the performance certificate relating to employment considerations; and/or matters of non-compliance are not quickly remedied, with documentation, by the governing board.		0

NAME OF SCHOOL --- FINANCIAL FRAMEWORK

	INDICATOR 1: NEAR-TERM MEASURES		
Measure 1a	Current Ratio: Current Assets divided by Current Liabilities	Result	I
Current Ratio	Meets Standard: Current Ratio is greater than or equal to 1.1 OR Current Ratio is between 1.0 and 1.1 and one-year trend is positive (current year ratio is higher than last year's). Note: For schools in their first or second year of operation, the current ratio must be greater than or equal to 1.1.		
	Does Not Meet Standard: Current Ratio is between 0.9 and 1.0 or equalis 1.0 OR Current Ratio is between 1.0 and 1.1 and one-year trend is negative.		
	Falls Far Below Standard: Current ratio is less than or equal to 0.9.		
Notes	Although the scoring mechanism included with this draft includes points for Financial measures, the total number of Financial points earned is intended to be calculated and considered seperately from the combined Academic and Mission-Specific points. This is because the bulk of an authorizer's renewal decision-making should be based on Academic and Mission-Specific outcomes; Operational and Financial indicators should be secondary, providing additional information on which to base a decision regarding a school whose Academic and/or Mission- Specific results are marginal. Only in cases of egregious Operational or Financial deficincies should these indicators serve as the primary rationale for non-renewal.		
Measure 1b Unrestricted Days Cash	Unrestricted Days Cash: Unrestricted Cash divided by (Total Expenses minus Depreciation Expense / 365)	Result	I
	Meets Standard: 60 Days Cash OR Between 30 and 60 Days Cash and one-year trend is positive. Note: Schools in their first or second year of operation must have a minimum of 30 Days Cash.		
	Does Note Meet Standard: Days Cash is between 15-30 days OR Days Cash is between 30-60 days and one-year trend is negative.		
	Falls Far Below Standard: Fewer than 15 Days Cash.		
Notes			
Measure 1c Enrollment Variance	Enrollment Variance: Actual Enrollment divided by Enrollment Projection in Charter School Board-Approved Budget	Result	I
	Meets Standard: Enrollment Variance equals or exceeds 95 percent in the most recent year.		
	Does Not Meet Standard: Enrollment Variance is between 85-95 percent in the most recent year.		
	Falls Far Below Standard: Enrollment Variance is less than 85 percent in the most recent year.		
Notes			
Measure 1d Default	Default	Result	I
	Meets Standard: School is not in default of loan covenant(s) and/ore is not delinquent with debt service payments.		
	Does Not Meet Standard: Not applicable		
	Falls Far Below Standard: School is in default of loan covenant(s) and/or is delinquent with debt service payments.
