ENEWAL RECOMMENDATION
is recommended that the charter of Rolling Hills Public Charter School (RHPCS) be renewed for a five (5) ear term.

School Overview

SUMMARY

Rolling Hills Public Charter School (RHPCS) is a public charter school serving Boise and West Ada area students in grades K-8. Originally based on the Harbor Method, RHPCS continues to use direct instruction, service learning, and a teach-to-the-high philosophy to develop engaged and educated citizens.

The charter includes the following commitments:

- Students will read at grade level by grade 3.
- Students will write and compute math at grade level by grade 4.
- Students will demonstrate annual improvement or perform in the top quartiles on state-required assessments.

Although the standards detailed in the performance certificate supplant those in the charter, these commitments represent the nature and anticipated effectiveness of the school as promised by its founders.

The petition for Rolling Hills Public Charter School was approved by the PCSC in September 2004. The school opened in fall 2005.

MISSION

The Rolling Hills Public Charter School mission is to develop educated and engaged citizens through high expectations for student behavior and academic success in a small, safe, structured environment.

Academic Performance Summary

RHPCS's academic performance has remained strong throughout the performance certificate term.

RHPCS's non-white and LEP student populations are lower than those of the state and surrounding district, while its special needs population is higher. The school's FRL population is comparable to that of the district, but lower than the state average.

DRAFT Distributed November 2017

Introduction

Each year, Idaho's Public Charter School Commission (PCSC) issues a performance report to every school in its portfolio. The annual report serves several purposes:

- 1. To provide transparent, data-driven information about charter school quality;
- 2. To ensure that charter school boards have access to clear expectations and are provided maximum opportunity to correct any deficiencies prior to their renewal year; and
- 3. To inform mid-term decision making, such as the evaluation of charter amendment proposals.

This report contains an overview of the school, including its history, mission, leadership, and demographics. The overview is followed by the school's performance framework, including outcomes for the most recently completed school year.

The performance framework is comprised of four sections: Academic, Mission-Specific, Operational, and Financial. Each section contains a number of measures intended to evaluate the school's performance against specific criteria. The scorecard pages of the framework offer a summary of the school's scores and accountability designation ranging from Honor (high) to Critical (low).

Due to significant and ongoing changes to the state's school accountability system, many of the academic measures in the performance framework could not be scored this year. Data for all of the growth measures and most of the post-secondary readiness measures was unavailable. As a result, academic framework scores cannot reflect the intended scope of information.

Additionally, although ISAT Math and English Language Arts proficiency data was available, it was gathered using an assessment that the state adopted subsequent to the framework's development. The cut scores used to establish proficiency remain under evaluation, and it cannot be determined at this time whether or not the rating categories within each framework measure are appropriate in the context of the new assessment.

For these reasons, we have eliminated academic framework scores from this report and instead provided comparisons of the public charter schools' proficiency rates to those of the state as a whole, as well as to area schools that serve similar grade ranges. In some cases, comparisons cannot be provided because the data is masked per state law or statistical irrelevance.

To facilitate a clearer context for the academic results contained in this report, the demographic, enrollment, and school leadership data provided is from the 2016-17 school year. Updated enrollment and school leadership information is available upon request from the school or PCSC office.

Schools had an opportunity to correct or clarify their framework outcomes prior to the publication of this report.

Public charter school operations are inherently complex. For this reason, readers are encouraged to consider the scores on individual measures within the framework as a starting point for gaining full, contextualized understanding of the school's performance.

Additional information about how the performance framework was developed and how results may be interpreted is available on the PCSC's website: chartercommission.idaho.gov.

All proficiency and growth measures will be scored using the ISAT by SBAC, or any state-required standardized test as may replace it. Subject area (math and ELA) may be replaced by similar subject areas if necessary due to statewide changes. On all applicable measures, standard rounding to the nearest whole number will be used for scoring purposes. Measures based on ISAT outcomes exclude alternate ISAT data; as a result, the outcomes shown may differ slightly from those published on the State Department of Education's website.

PUBLIC CHARTER SCHOOL COMMISSION - PERFORMANCE FRAMEWORK

Name of School: Rolling Hills Public Charter School Year Opened: 2005 Operating Term: 10/10/13 - 6/30/18 Date Executed: 10/10/2013

Introduction

Idaho's charter school legislation requires each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations and terms of the performance certificate.

The measurable performance targets contained within the framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement. This Performance Framework was adopted by the Public Charter School Commission (PCSC) on August 30, 2013, and is intended for use with non-alternative public charter schools authorized by the PCSC.

Performance Framework Structure

The Performance Framework is divided into four sections: Academic, Mission-Specific, Operational, and Financial. The Academic and Mission-Specific sections comprise the primary indicators on which most renewal or non-renewal decisions will be based. The Operational and Financial sections contribute additional indicators that will, except in cases of egregious failure to meet standards, be considered secondary.

Academic:

A high percentage (60%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of academic measures. These measures are the same for all non-alternative schools. The "Meets Standard" rating for each measure is designed to align closely with state minimum standards as established in Idaho's ESEA waiver and Star Rating System.

Mission-Specific:

A significant portion (40%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of mission-specific measures. These measures may be academic or non-academic in nature, but must be objective and data-driven. The number and weighting of mission-specific measures should be established during one-on-one negotiations between the school and authorizer.

During their first Performance Certificate term only, schools authorized to open in or before Fall 2014 may choose to opt out of the Mission-Specific section of the framework. Schools choosing to opt out of Mission-Specific measures for their first term agree that the weight of those measures will be placed instead on the Academic section, which then becomes the single, primary factor considered for purposes of renewal or non-renewal.

Operational:

Operational indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the operational section, this score should not be used as the primary rationale for non-renewal unless the non-compliance with organizational expectations is severe or systemic. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal.

Financial:

Financial indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the financial section, this score should not be used as the primary rationale for non-renewal unless the school's financial state at the time of renewal is dire. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal. The PCSC may also elect to renew a financially troubled school that is clearly providing a high quality education, but notify the SDE of the situation so that the payment schedule may be modified in order to safeguard taxpayer dollars.

Accountability Designations

Calculation of the percentage of eligible points earned for each school will guide the determination of that school's accountability designation: Honor, Good Standing, Remediation, or Critical. The accountability designation will, in turn, guide the PCSC's renewal or non-renewal decision-making. Measures for which a school lacks data due to factors such as grade configuration or small size will not contribute to that school's accountability designation. The PCSC will consider contextual factors affecting a school's accountability designation when making renewal or non-renewal decisions.

Honor:

Schools achieving at this level in all categories (academic, mission-specific, operational, and financial) are eligible for special recognition and will be recommended for renewal. Replication and expansion proposals are likely to succeed. The Framework places schools that earn 75-100% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 5-star schools, high-range 4-star schools with solid mission-specific outcomes, and mid-range 4-star schools with strong mission-specific outcomes to receive an honor designation. Schools that fall into this point-percentage category but have poor operational and/or financial outcomes will not be eligible for an honor designation.

Good Standing:

Schools achieving at this level will be recommended for renewal; however, conditional renewal may be recommended if operational and/or financial outcomes are poor. Replication and expansion proposals will be considered. To be placed in this category, schools much receive the appropriate percentage of the combined academic and mission-specific points possible and have at least a 3-star rating. The Framework places schools that earn 55-74% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star or 4-star schools with solid mission-specific outcomes, or 5-star schools with poor mission-specific, financial, and/or operational outcomes to receive a good standing designation. Although 2-star schools with strong mission-specific outcomes could fall into this point-percentage range, they would not be eligible to receive a good standing designation due to their star ratings; the Framework is drafted thus in recognition of Idaho's statutory provision that the performance framework shall, at a minimum, require that each school meet applicable federal and state goals for student achievement.

Remediation:

Schools achieving at this level may be recommended for non-renewal or conditional renewal, particularly if operational and/or financial outcomes are poor. Replication and expansion proposals are unlikely to succeed. The Framework places schools that earn 31-54% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star schools with poor mission-specific outcomes, 2-star schools, or 1-star schools with strong mission-specific outcomes to receive a remediation designation.

Critical:

Schools achieving at this level face a strong likelihood of non-renewal, particularly if operational and/or financial outcomes are also poor. Replication and expansion proposals should not be considered. The Framework places schools that earn less than 30% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 1-star schools or 2-star schools with poor mission-specific outcomes to receive a Critical designation.

Rolling Hills Public Charter School

ANNUAL PERFORMANCE REPORT 2015-2016

Idaho Public Charter School Commission 304 North 8th Street, Room 242 Boise, Idaho 83702

Phone: (208) 332-1561 chartercommission.idaho.gov

Alan Reed, Chairman Tamara Baysinger, Director

Distributed January 2017

Introduction

Each year, Idaho's Public Charter School Commission (PCSC) issues a performance report to every school in its portfolio. The annual report serves several purposes:

- 1. To provide transparent, data-driven information about charter school quality;
- 2. To ensure that charter school boards have access to clear expectations and are provided maximum opportunity to correct any deficiencies prior to their renewal year; and
- 3. To inform mid-term decision making, such as the evaluation of charter amendment proposals.

This report contains an overview of the school, including its history, mission, leadership, and demographics. The overview is followed by the school's performance framework, including outcomes for the most recently completed school year.

The performance framework is comprised of four sections: Academic, Mission-Specific, Operational, and Financial. Each section contains a number of measures intended to evaluate the school's performance against specific criteria. The scorecard pages of the framework offer a summary of the school's scores and accountability designation ranging from Honor (high) to Critical (low).

Due to significant and ongoing changes to the state's school accountability system, many of the academic measures in the performance framework could not be scored this year. Data for all of the growth measures and most of the post-secondary readiness measures was unavailable. As a result, academic framework scores cannot reflect the intended scope of information.

Additionally, although ISAT Math and English Language Arts proficiency data was available, it was gathered using an assessment that the state adopted subsequent to the framework's development. The cut scores used to establish proficiency remain under evaluation, and it cannot be determined at this time whether or not the rating categories within each framework measure are appropriate in the context of the new assessment.

For these reasons, we have eliminated academic framework scores from this report and instead provided comparisons of the public charter schools' proficiency rates to those of the state as a whole, as well as to area schools that serve similar grade ranges. In some cases, comparisons cannot be provided because the data is masked per state law or statistical irrelevance.

To facilitate a clearer context for the academic results contained in this report, the demographic, enrollment, and school leadership data provided is from the 2014-15 school year. Updated enrollment and school leadership information is available upon request from the school or PCSC office.

Schools had an opportunity to correct or clarify their framework outcomes prior to the publication of this report.

Public charter school operations are inherently complex. For this reason, readers are encouraged to consider the scores on individual measures within the framework as a starting point for gaining full, contextualized understanding of the school's performance.

Additional information about how the performance framework was developed and how results may be interpreted is available on the PCSC's website: chartercommission.idaho.gov.

Introduction

Idaho's charter school legislation requires each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations and terms of the performance certificate.

The measurable performance targets contained within the framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement. This Performance Framework was adopted by the Public Charter School Commission (PCSC) on August 30, 2013, and is intended for use with non-alternative public charter schools authorized by the PCSC.

Performance Framework Structure

The Performance Framework is divided into four sections: Academic, Mission-Specific, Operational, and Financial. The Academic and Mission-Specific sections comprise the primary indicators on which most renewal or non-renewal decisions will be based. The Operational and Financial sections contribute additional indicators that will, except in cases of egregious failure to meet standards, be considered secondary.

Academic:

A high percentage (60%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of academic measures. These measures are the same for all non-alternative schools. The "Meets Standard" rating for each measure is designed to align closely with state minimum standards as established in Idaho's ESEA waiver and Star Rating System.

Mission-Specific:

A significant portion (40%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of mission-specific measures. These measures may be academic or non-academic in nature, but must be objective and data-driven. The number and weighting of mission-specific measures should be established during one-on-one negotiations between the school and authorizer.

During their first Performance Certificate term only, schools authorized to open in or before Fall 2014 may choose to opt out of the Mission-Specific section of the framework. Schools choosing to opt out of Mission-Specific measures for their first term agree that the weight of those measures will be placed instead on the Academic section, which then becomes the single, primary factor considered for purposes of renewal or non-renewal.

Operational:

Operational indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the operational section, this score should not be used as the primary rationale for non-renewal unless the non-compliance with organizational expectations is severe or systemic. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal.

Financial:

Financial indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the financial section, this score should not be used as the primary rationale for non-renewal unless the school's financial state at the time of renewal is dire. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal. The PCSC may also elect to renew a financially troubled school that is clearly providing a high quality education, but notify the SDE of the situation so that the payment schedule may be modified in order to safeguard taxpayer dollars.

Accountability Designations

Calculation of the percentage of eligible points earned for each school will guide the determination of that school's accountability designation: Honor, Good Standing, Remediation, or Critical. The accountability designation will, in turn, guide the PCSC's renewal or non-renewal decision-making. Measures for which a school lacks data due to factors such as grade configuration or small size will not contribute to that school's accountability designation. The PCSC will consider contextual factors affecting a school's accountability designation when making renewal or non-renewal decisions.

Honor:

Schools achieving at this level in all categories (academic, mission-specific, operational, and financial) are eligible for special recognition and will be recommended for renewal. Replication and expansion proposals are likely to succeed. The Framework places schools that earn 75-100% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 5-star schools, high-range 4-star schools with solid mission-specific outcomes, and mid-range 4-star schools with strong mission-specific outcomes to receive an honor designation. Schools that fall into this point-percentage category but have poor operational and/or financial outcomes will not be eligible for an honor designation.

Good Standing:

Schools achieving at this level will be recommended for renewal; however, conditional renewal may be recommended if operational and/or financial outcomes are poor. Replication and expansion proposals will be considered. To be placed in this category, schools much receive the appropriate percentage of the combined academic and mission-specific points possible and have at least a 3-star rating. The Framework places schools that earn 55-74% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star or 4-star schools with solid mission-specific outcomes, or 5-star schools with poor mission-specific, financial, and/or operational outcomes to receive a good standing designation. Although 2-star schools with strong mission-specific outcomes could fall into this point-percentage range, they would not be eligible to receive a good standing designation due to their star ratings; the Framework is drafted thus in recognition of Idaho's statutory provision that the performance framework shall, at a minimum, require that each school meet applicable federal and state goals for student achievement.

Remediation:

Schools achieving at this level may be recommended for non-renewal or conditional renewal, particularly if operational and/or financial outcomes are poor. Replication and expansion proposals are unlikely to succeed. The Framework places schools that earn 31-54% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star schools with poor mission-specific outcomes, 2-star schools, or 1-star schools with strong mission-specific outcomes to receive a remediation designation.

Critical:

Schools achieving at this level face a strong likelihood of non-renewal, particularly if operational and/or financial outcomes are also poor. Replication and expansion proposals should not be considered. The Framework places schools that earn less than 30% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 1-star schools or 2-star schools with poor mission-specific outcomes to receive a Critical designation.

Introduction

Each year, Idaho's Public Charter School Commission (PCSC) issues a performance report to every school in its portfolio. The annual report serves several purposes:

- 1. To provide transparent, data-driven information about charter school quality;
- 2. To ensure that charter school boards have access to clear expectations and are provided maximum opportunity to correct any deficiencies prior to their renewal year; and
- 3. To inform mid-term decision making, such as the evaluation of charter amendment proposals.

This report contains an overview of the school, including its history, mission, leadership, and demographics. The overview is followed by the school's performance framework, including outcomes for the most recently completed school year.

The performance framework is comprised of four sections: Academic, Mission-Specific, Operational, and Financial. Each section contains a number of measures intended to evaluate the school's performance against specific criteria. The scorecard pages of the framework offer a summary of the school's scores and accountability designation ranging from Honor (high) to Critical (low).

Due to significant and ongoing changes to the state's school accountability system, many of the academic measures in the performance framework could not be scored this year. Data for all of the growth measures and most of the post-secondary readiness measures was unavailable. As a result, academic framework scores cannot reflect the intended scope of information.

Additionally, although ISAT Math and English Language Arts proficiency data was available, it was gathered using an assessment that the state adopted subsequent to the framework's development. The cut scores used to establish proficiency remain under evaluation, and it cannot be determined at this time whether or not the rating categories within each framework measure are appropriate in the context of the new assessment.

For these reasons, we have eliminated academic framework scores from this report and instead provided comparisons of the public charter schools' proficiency rates to those of the state as a whole, as well as to area schools that serve similar grade ranges. In some cases, comparisons cannot be provided because the data is masked per state law or statistical irrelevance.

To facilitate a clearer context for the academic results contained in this report, the demographic, enrollment, and school leadership data provided is from the 2014-15 school year. Updated enrollment and school leadership information is available upon request from the school or PCSC office.

Schools had an opportunity to correct or clarify their framework outcomes prior to the publication of this report.

Public charter school operations are inherently complex. For this reason, readers are encouraged to consider the scores on individual measures within the framework as a starting point for gaining full, contextualized understanding of the school's performance.

Additional information about how the performance framework was developed and how results may be interpreted is available on the PCSC's website: chartercommission.idaho.gov.

Introduction

Idaho's charter school legislation requires each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations and terms of the performance certificate.

The measurable performance targets contained within the framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement. This Performance Framework was adopted by the Public Charter School Commission (PCSC) on August 30, 2013, and is intended for use with non-alternative public charter schools authorized by the PCSC.

Performance Framework Structure

The Performance Framework is divided into four sections: Academic, Mission-Specific, Operational, and Financial. The Academic and Mission-Specific sections comprise the primary indicators on which most renewal or non-renewal decisions will be based. The Operational and Financial sections contribute additional indicators that will, except in cases of egregious failure to meet standards, be considered secondary.

Academic:

A high percentage (60%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of academic measures. These measures are the same for all non-alternative schools. The "Meets Standard" rating for each measure is designed to align closely with state minimum standards as established in Idaho's ESEA waiver and Star Rating System.

Mission-Specific:

A significant portion (40%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of mission-specific measures. These measures may be academic or non-academic in nature, but must be objective and data-driven. The number and weighting of mission-specific measures should be established during one-on-one negotiations between the school and authorizer.

During their first Performance Certificate term only, schools authorized to open in or before Fall 2014 may choose to opt out of the Mission-Specific section of the framework. Schools choosing to opt out of Mission-Specific measures for their first term agree that the weight of those measures will be placed instead on the Academic section, which then becomes the single, primary factor considered for purposes of renewal or non-renewal.

Operational:

Operational indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the operational section, this score should not be used as the primary rationale for non-renewal unless the non-compliance with organizational expectations is severe or systemic. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal.

Financial:

Financial indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the financial section, this score should not be used as the primary rationale for non-renewal unless the school's financial state at the time of renewal is dire. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal. The PCSC may also elect to renew a financially troubled school that is clearly providing a high quality education, but notify the SDE of the situation so that the payment schedule may be modified in order to safeguard taxpayer dollars.

Accountability Designations

Calculation of the percentage of eligible points earned for each school will guide the determination of that school's accountability designation: Honor, Good Standing, Remediation, or Critical. The accountability designation will, in turn, guide the PCSC's renewal or non-renewal decision-making. Measures for which a school lacks data due to factors such as grade configuration or small size will not contribute to that school's accountability designation. The PCSC will consider contextual factors affecting a school's accountability designation when making renewal or non-renewal decisions.

Honor:

Schools achieving at this level in all categories (academic, mission-specific, operational, and financial) are eligible for special recognition and will be recommended for renewal. Replication and expansion proposals are likely to succeed. The Framework places schools that earn 75-100% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 5-star schools, high-range 4-star schools with solid mission-specific outcomes, and mid-range 4-star schools with strong mission-specific outcomes to receive an honor designation. Schools that fall into this point-percentage category but have poor operational and/or financial outcomes will not be eligible for an honor designation.

Good Standing:

Schools achieving at this level will be recommended for renewal; however, conditional renewal may be recommended if operational and/or financial outcomes are poor. Replication and expansion proposals will be considered. To be placed in this category, schools much receive the appropriate percentage of the combined academic and mission-specific points possible and have at least a 3-star rating. The Framework places schools that earn 55-74% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star or 4-star schools with solid mission-specific outcomes, or 5-star schools with poor mission-specific, financial, and/or operational outcomes to receive a good standing designation. Although 2-star schools with strong mission-specific outcomes could fall into this point-percentage range, they would not be eligible to receive a good standing designation due to their star ratings; the Framework is drafted thus in recognition of Idaho's statutory provision that the performance framework shall, at a minimum, require that each school meet applicable federal and state goals for student achievement.

Remediation:

Schools achieving at this level may be recommended for non-renewal or conditional renewal, particularly if operational and/or financial outcomes are poor. Replication and expansion proposals are unlikely to succeed. The Framework places schools that earn 31-54% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star schools with poor mission-specific outcomes, 2-star schools, or 1-star schools with strong mission-specific outcomes to receive a remediation designation.

Critical:

Schools achieving at this level face a strong likelihood of non-renewal, particularly if operational and/or financial outcomes are also poor. Replication and expansion proposals should not be considered. The Framework places schools that earn less than 30% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 1-star schools or 2-star schools with poor mission-specific outcomes to receive a Critical designation.

Rolling Hills Public Charter School

ANNUAL PERFORMANCE REPORT 2013-2014

Idaho Public Charter School Commission 304 North 8th Street, Room 242 Boise, Idaho 83702

Phone: (208) 332-1561 chartercommission.idaho.gov

Alan Reed, Chairman Tamara Baysinger, Director

Distributed Spring 2015

Introduction

Each year, Idaho's Public Charter School Commission (PCSC) issues a performance report to every school in its portfolio. The annual report serves several purposes:

- 1. To provide transparent, data-driven information about charter school quality;
- 2. To ensure that charter school boards have access to clear expectations and are provided maximum opportunity to correct any deficiencies prior to their renewal year; and
- 3. To inform mid-term decision making, such as the evaluation of charter amendment proposals.

This report contains an overview of the school, including its history, mission, leadership, and demographics. The overview is followed by the school's performance framework, including outcomes for the most recently completed school year.

The performance framework is comprised of four sections: Academic, Mission-Specific, Operational, and Financial. Each section contains a number of measures intended to evaluate the school's performance against specific criteria. The scorecard pages of the framework offer a summary of the school's scores and accountability designation ranging from Honor (high) to Critical (low).

Schools have an opportunity to correct or clarify their framework outcomes prior to the publication of this report.

Public charter school operations are inherently complex. For this reason, readers are encouraged to consider the scores on individual measures within the framework as a starting point for gaining full, contextualized understanding of the school's performance.

Additional information about how the performance framework was developed and how results may be interpreted is available on the PCSC's website: chartercommission.idaho.gov.

PUBLIC CHARTER SCHOOL COMMISSION - PERFORMANCE FRAMEWORK

Name of School: Rolling Hills Public Charter School

Year Opened: 2005 Operating Term: 10/10/13 - 6/30/18 Date Executed: 10/10/2013

Introduction

Idaho's charter school legislation requires each public charter school authorizer to develop a Performance Framework on which the provisions of the Performance Certificate will be based. Performance Frameworks must clearly set forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school, and must contain the following:

- Indicators, measures, and metrics for student academic proficiency;
- Indicators, measures, and metrics for student academic growth;
- Indicators, measures, and metrics for college and career readiness (for high schools); and
- Indicators, measures, and metrics for board performance and stewardship, including compliance with all applicable laws, regulations and terms of the performance certificate.

The measurable performance targets contained within the framework must require, at a minimum, that each school meet applicable federal, state, and authorizer goals for student achievement. This Performance Framework was adopted by the Public Charter School Commission (PCSC) on August 30, 2013, and is intended for use with non-alternative public charter schools authorized by the PCSC.

Performance Framework Structure

The Performance Framework is divided into four sections: Academic, Mission-Specific, Operational, and Financial. The Academic and Mission-Specific sections comprise the primary indicators on which most renewal or non-renewal decisions will be based. The Operational and Financial sections contribute additional indicators that will, except in cases of egregious failure to meet standards, be considered secondary.

Academic:

A high percentage (60%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of academic measures. These measures are the same for all non-alternative schools. The "Meets Standard" rating for each measure is designed to align closely with state minimum standards as established in Idaho's ESEA waiver and Star Rating System.

Mission-Specific:

A significant portion (40%) of a school's total score for the Academic & Mission Specific Accountability Designation reflects the school's performance on a set of mission-specific measures. These measures may be academic or non-academic in nature, but must be objective and data-driven. The number and weighting of mission-specific measures should be established during one-on-one negotiations between the school and authorizer.

During their first Performance Certificate term only, schools authorized to open in or before Fall 2014 may choose to opt-out of the Mission-Specific section of the framework. Schools choosing to opt out of Mission-Specific measures for their first term agree that the weight of those measures will be placed instead on the Academic section, which then becomes the single, primary factor considered for purposes of renewal or non-renewal.

Operational:

Operational indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the operational section, this score should not be used as the primary rationale for non-renewal unless the non-compliance with organizational expectations is severe or systemic. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal.

Financial:

Financial indicators comprise a secondary element for consideration during the renewal process. While each school will receive a score in the financial section, this score should not be used as the primary rationale for non-renewal unless the school's financial state at the time of renewal is dire. Particularly for a school whose academic performance meets or exceeds standards, poor results in this area are more likely to lead to a conditional renewal decision than to non-renewal. The PCSC may also elect to renew a financially troubled school that is clearly providing a high quality education, but notify the SDE of the situation so that the payment schedule may be modified in order to safeguard taxpayer dollars.

Accountability Designations

Calculation of the percentage of eligible points earned for each school will guide the determination of that school's accountability designation: Honor, Good Standing, Remediation, or Critical. The accountability designation will, in turn, guide the PCSC's renewal or non-renewal decision-making. Measures for which a school lacks data due to factors such as grade configuration or small size will not contribute to that school's accountability designation. The PCSC will consider contextual factors affecting a school's accountability designation when making renewal or non-renewal decisions.

Honor:

Schools achieving at this level in all categories (academic, mission-specific, operational, and financial) are eligible for special recognition and will be recommended for renewal. Replication and expansion proposals are likely to succeed. The Framework places schools that earn 75-100% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 5-star schools, high-range 4-star schools with solid mission-specific outcomes, and mid-range 4-star schools with strong mission-specific outcomes to receive an honor designation. Schools that fall into this point-percentage category but have poor operational and/or financial outcomes will not be eligible for an honor designation.

Good Standing:

Schools achieving at this level will be recommended for renewal; however, conditional renewal may be recommended if operational and/or financial outcomes are poor. Replication and expansion proposals will be considered. To be placed in this category, schools much receive the appropriate percentage of the combined academic and mission-specific points possible and have at least a 3-star rating. The Framework places schools that earn 55-74% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star or 4-star schools with solid mission-specific outcomes, or 5-star schools with poor mission-specific, financial, and/or operational outcomes to receive a good standing designation. Although 2-star schools with strong mission-specific outcomes could fall into this point-percentage range, they would not be eligible to receive a good standing designation due to their star ratings; the Framework is drafted thus in recognition of Idaho's statutory provision that the performance framework shall, at a minimum, require that each school meet applicable federal and state goals for student achievement.

Remediation:

Schools achieving at this level may be recommended for non-renewal or conditional renewal, particularly if operational and/or financial outcomes are poor. Replication and expansion proposals are unlikely to succeed. The Framework places schools that earn 31-54% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 3-star schools with poor mission-specific outcomes, 2-star schools, or 1-star schools with strong mission-specific outcomes to receive a remediation designation.

Critical:

Schools achieving at this level face a strong likelihood of non-renewal, particularly if operational and/or financial outcomes are also poor. Replication and expansion proposals should not be considered. The Framework places schools that earn less than 30% of the combined academic and mission-specific points possible in this accountability designation. It is possible for 1-star schools or 2-star schools with poor mission-specific outcomes to receive a Critical designation.

CHARTER SCHOOL PERFORMANCE CERTIFICATE

This performance certificate is executed on this 10th day of October, 2013, by and between the Idaho Public Charter School Commission (the "Authorizer"), and Rolling Hills Public Charter School, Inc. (the "School"), an independent public school organized as an Idaho nonprofit corporation and established under the Public Charter Schools Law, Idaho Code Section 33-5201 *et seq*, as amended (the "Charter Schools Law.")

RECITALS

WHEREAS, on September 17, 2004, the Authorizer approved a charter petition for the establishment of the School; and

WHEREAS, the School began operations in the year 2005; and

WHEREAS, the Charter Schools Law was amended effective as of July 1, 2013 to require all public charter schools approved prior to July 1, 2013 to execute performance certificates with their authorizers no later than July 1, 2014;

NOW THEREFORE in consideration of the foregoing recitals and mutual understandings, the Authorizer and the School agree as follows:

SECTION 1: AUTHORIZATION OF CHARTER SCHOOL

- **A. Continued Operation of School.** Pursuant to the Charter Schools Law, the Authorizer hereby approves the continued operation of the School on the terms and conditions set forth in this Charter School Performance Certificate (the "Certificate"). The approved Charter is attached to this Certificate as Appendix B.
- **B. Pre-Opening Requirements.** Pursuant to Idaho Code Section 33-5206(6), the Authorizer may establish reasonable pre-opening requirements or conditions ("Pre-Opening Requirements") to monitor the start-up progress of a newly approved public charter school to ensure that the school is prepared to open smoothly on the date agreed. The School shall not commence instruction until all pre-opening requirements have been completed to the satisfaction of the Authorizer. Pre-opening requirements are attached as Appendix C. If all pre-opening conditions have been completed to the satisfaction of the Authorizer, the School shall commence operations/instruction with the first day of school in Fall 2005. In the event that all pre-opening conditions have not been completed to the satisfaction of the Authorizer, the School may not commence instruction on the scheduled first day of school. In such event, the Authorizer may exercise its authority on or before July 20

- to prohibit the School from commencing operation/instruction until the start of the succeeding semester or school year.
- C. Term of Agreement. This Certificate is effective as of October 10, 2013, and shall continue through June 30, 2018, unless earlier terminated as provided herein.

SECTION 2: SCHOOL GOVERNANCE

- **A. Governing Board.** The School shall be governed by a board (the "Charter Board") in a manner that is consistent with the terms of this Certificate so long as such provisions are in accordance with state, federal, and local law. The Charter Board shall have final authority and responsibility for the academic, financial, and organizational performance of the School. The Charter Board shall also have authority for and be responsible for policy and operational decisions of the School, although nothing herein shall prevent the Charter Board from delegating decision-making authority for policy and operational decisions to officers, employees and agents of the School, as well as third party management providers.
- **B.** Articles of Incorporation and Bylaws. The articles of incorporation and bylaws of the entity holding the charter shall provide for governance of the operation of the School as a nonprofit corporation and public charter school and shall at all times be consistent with all applicable law and this Certificate. The articles of incorporation and bylaws are attached to this Certificate as Appendix D (the "Articles and Bylaws"). Any modification of the Articles and Bylaws must be submitted to the Authorizer within five (5) business days of approval by the Charter Board.
- C. Charter Board Composition. The composition of the Charter Board shall at all times be determined by and consistent with the Articles and Bylaws and all applicable law and policy. The roster of the Charter Board is attached to this Certificate as Appendix E (the "Board Roster"). The Charter Board shall notify the Authorizer of any changes to the Board Roster and provide an amended Board Roster within five (5) business days of their taking effect.

SECTION 3: EDUCATIONAL PROGRAM

- A. School Mission. The mission of the School is as follows: The Rolling Hills Public Charter School mission is to develop educated and engaged citizens through high expectations for student behavior and academic success in a small, safe, structured environment.
- **B.** Grades Served. The School may serve students in kindergarten through grade 8.
- **C. Design Elements.** The School shall implement and maintain the following essential design elements of its educational program:
 - Create a physically and emotionally safe learning environment;
 - Utilize citizenship education through the Six Pillars of Character;

- Integrate service learning;
- Teach to the high through the core curriculum, including the Shurley method;
- Offer electives to middle school students.
- **D. Standardized Testing.** Students of the School shall be tested with the same standardized tests as other Idaho public school students.
- **E.** Accreditation. The School shall be accredited as provided by rule of the state board of education.

SECTION 4: AUTHORIZER ROLE AND RESPONSIBILITIES

- **A. Oversight allowing autonomy.** The Authorizer shall comply with the provisions of Charter School Law and the terms of this Certificate in a manner that does not unduly inhibit the autonomy of the School. The Authorizer's Role will be to evaluate the School's outcomes according to this Certificate and the Performance Framework rather than to establish the process by which the School achieves the outcomes sought.
- **B.** Charter School Performance Framework. The Charter School Performance Framework ("Performance Framework") is attached and incorporated into this agreement as Appendix F. The Performance Framework shall be used to evaluate the School's academic, financial and operational performance, and shall supersede and replace any and all assessment measures, educational goals and objectives, financial operations metrics, and operational performance metrics set forth in the Charter and not explicitly incorporated into the Performance Framework. The specific terms, form and requirements of the Performance Framework, including any required indicators, measures, metrics, and targets, are determined by the Authorizer and will be binding on the School.
- **C. Authorizer to Monitor School Performance.** The Authorizer shall monitor and report on the School's progress in relation to the indicators, measures, metrics and targets set out in the Performance Framework. The School shall be subject to a formal review of its academic, mission-specific, operational, and financial performance at least annually.
- **D. School Performance.** The School shall achieve an accountability designation of *Good Standing* or *Honor* on each of the three sections of the Performance Framework. In the event the School is a party to a third party management contract which includes a deficit protection clause, the School shall be exempt from some or all measures within the financial portion of the Performance Framework. In accordance with Charter School Law, the Authorizer shall renew any charter in which the public charter school met all of the terms of its performance certificate at the time of renewal.
- **E.** Performance Framework As Basis For Renewal of Charter. The School's performance in relation to the indicators, measures, metrics and targets set forth in the Academic and Mission-Specific, Operational and Financial sections of the Performance Framework shall provide the basis upon which the Authorizer will decide whether to renew the School's Charter at the end of the Certificate term. As part of the Performance

- Framework, the Authorizer agrees to consider mission-specific, rigorous, valid, and reliable indicators of the School's performance. These negotiated indicators will be included in the Mission-Specific portion of the Academic and Mission Specific section of the Performance Framework.
- **F.** Authorizer's Right to Review. The School will be subject to review of its academics, operations and finances by the Authorizer, including related policies, documents and records, when the Authorizer deems such review necessary. The Authorizer shall conduct its reviews in a manner that does not unduly inhibit the autonomy granted to the School.
- **G. Site Visits.** In addition to the above procedures, the Charter School shall grant reasonable access to, and cooperate with, the Authorizer, its officers, employees and other agents, including allowing site visits by the Authorizer, its officers, employees, or other agents, for the purpose of allowing the Authorizer to fully evaluate the operations and performance of the School. The Authorizer may conduct a site visit at any time if the Authorizer has reasonable concern regarding the operations and performance of the School. The Authorizer will provide the School reasonable notice prior to its annual site visit to the School. The School shall have an opportunity to provide a written response to the site visit report no later than fourteen (14) days prior to the meeting at which the report is to be considered by the Authorizer. If no written response is provided, the School shall have the opportunity to respond orally to the site visit report at the meeting.
- **H. Required Reports.** The School shall prepare and submit reports regarding its governance, operations, and/or finances according to the established policies of and upon the request of the Authorizer. However, to the extent possible, the Authorizer shall not request reports from the School that are otherwise available through student information systems or other data sources reasonably available to the Authorizer.

SECTION 5: SCHOOL OPERATIONS

- **A. In General.** The School and the Charter Board shall operate at all times in accordance with all federal and state laws, local ordinances, regulations and Authorizer policies applicable to charter schools. Authorizer policies in effect for the duration of this Certificate are attached as Appendix G.
- **B.** Maximum Enrollment. The maximum number of students who may be enrolled in the school shall be 278 students. The maximum number of students who may be enrolled per class/grade level shall be as follows:

```
Kindergarten- 24

1<sup>st</sup> Grade- 28

2<sup>nd</sup>-3<sup>rd</sup> Grade- 30

4<sup>th</sup>-5<sup>th</sup> Grade- 32

6<sup>th</sup>-8<sup>th</sup> Grade- 34
```

C. Enrollment Policy. The School shall make student recruitment, admissions,

enrollment and retention decisions in a nondiscriminatory manner and without regard to race, color, creed, national origin, sex, marital status, religion, ancestry, disability or need for special education services. In no event may the School limit admission based on race, ethnicity, national origin, disability, gender, income level, athletic ability, or proficiency in the English language. If there are more applications to enroll in the charter school than there are spaces available, the charter school shall select students to attend using a random selection process that shall be publicly noticed and open to the public. The School shall follow the enrollment policy approved by the Authorizer and incorporated into this agreement as Appendix H.

- **D.** School Facilities. 8900 N. Horseshoe Bend Rd., Boise, Idaho 83714. The School shall provide reasonable notification to the Authorizer of any change in the location of its facilities.
- **E.** Attendance Area. The School's primary attendance area is as follows: Residences within the following geographic boundaries: East of Eagle Rd., West of Glenwood or Gary Lane, South of Beacon Light, North of Chinden Blvd.
- **F. Staff.** Instructional staff shall be certified teachers as provided by rule of the state board of education. All full-time staff members of the School will be covered by the public employee retirement system, federal social security, unemployment insurance, worker's compensation insurance, and health insurance.
- **G.** Alignment with All Applicable Law. The School shall comply with all applicable federal and state laws, rules, and regulations. In the event any such laws, rules, or regulations are amended, the School shall be bound by any such amendment upon the effective date of said amendment.

SECTION 6: SCHOOL FINANCE

- **A. General.** The School shall comply with all applicable financial and budget statutes, rules, regulations, and financial reporting requirements, as well as the requirements contained in the School Performance Framework incorporated into this contract as Appendix F.
- **B. Financial Controls.** At all times, the Charter School shall maintain appropriate governance and managerial procedures and financial controls which procedures and controls shall include, but not be limited to: (1) commonly accepted accounting practices and the capacity to implement them (2) a checking account; (3) adequate payroll procedures; (4) procedures for the creation and review of monthly and quarterly financial reports, which procedures shall specifically identify the individual who will be responsible for preparing such financial reports in the following fiscal year; (5) internal control procedures for cash receipts, cash disbursements and purchases; and (6) maintenance of asset registers and financial procedures for grants in accordance with applicable state and federal law.
- C. Financial Audit. The School shall submit audited financial statements from an

- independent auditor to the Authorizer no later than October 15 of each year.
- **D.** Annual Budgets. The School shall adopt a budget for each fiscal year, prior to the beginning of the fiscal year. The budget shall be in the Idaho Financial Accounting Reporting Management Systems (IFARMS) format and any other format as may be reasonably requested by the Authorizer.

SECTION 7: TERMINATION, NON-RENEWAL AND REVOCATION

- **A. Termination by the School.** Should the School choose to terminate its Charter before the expiration of the Certificate, it may do so upon written notice to the Authorizer. Any school terminating its charter shall work with the Authorizer to ensure a smooth and orderly closure and transition for students and parents, as guided by the public charter school closure protocol established by the Authorizer attached as Appendix I.
- **B.** Nonrenewal. The Authorizer may non-renew the Charter at the expiration of the Certificate if the School failed to meet one (1) or more of the terms of its Certificate. Any school which is not renewed shall work with the Authorizer to ensure a smooth and orderly closure and transition for students and parents, as guided by the public charter school closure protocol established by the Authorizer attached as Appendix I.
- C. Revocation. The School's Charter may be revoked by the Authorizer if the School has failed to meet any of the specific, written renewal conditions attached, if applicable, as Appendix A for necessary improvements established pursuant to Idaho Code§ 33-5209B(1) by the dates specified. Revocation may not occur until the public charter school has been afforded a public hearing, unless the Authorizer determines that continued operation of the public charter school presents an imminent public safety issue. If the School's Charter is revoked, the School shall work with the Authorizer ensure a smooth and orderly closure and transition for students and parents, as guided by the public charter school closure protocol established by the Authorizer attached as Appendix I.
- **D. Dissolution.** Upon termination of the Charter for any reason by the Charter Board, or upon nonrenewal or revocation, the Charter Board will supervise and have authority to conduct the winding up of the business and other affairs of the School; provided, however, that in doing so the Authorizer will not be responsible for and will not assume any liability incurred by the School. The Charter Board and School personnel shall cooperate fully with the winding up of the affairs of the School.
- **E.** Disposition of School's Assets upon Termination or Dissolution. Upon termination of the Charter for any reason, any assets owned by the School shall be distributed in accordance with Charter Schools Law.

SECTION 8: MISCELLANEOUS

- **A.** No Employee or Agency Relationship. None of the provisions of this Certificate will be construed to create a relationship of agency, representation, joint venture, ownership, or employment between the Authorizer and the School.
- **B.** Additional Services. Except as may be expressly provided in this Certificate, as set forth in any subsequent written agreement between the School and the Authorizer, or as may be required by law, neither the School nor the Authorizer shall be entitled to the use of or access to the services, supplies, or facilities of the other.
- C. No Third-Party Beneficiary. This Certificate shall not create any rights in any third parties, nor shall any third party be entitled to enforce any rights or obligations that may be possessed by either party to this Certificate.
- **D.** Amendment. This Certificate may be amended by agreement between the School and the Authorizer in accordance with Authorizer policy, attached as Appendix G. All amendments must be in writing and signed by the School and the Authorizer.

AUXILIARY DATA SUBMITTED BY SCHOOL
The renewal process included an optional opportunity for schools to submit auxiliary performance data of which the PCSC may not otherwise be aware. Schools were invited to make their case for renewal by providing academic, mission-specific, operational, or financial information that was not already captured by the performance framework.
In March of the pre-renewal year, PCSC staff discussed with each school's leadership the kinds of auxiliary data that would be particularly helpful for that individual school. The Renewal Guidance and Application document provided instructions and examples to assist schools in submitting meaningful data.
RHPCS chose not to submit auxiliary data.
