HCCS Vision and Mission Statements

Vision:

To create:

- **H**igh Academic Achievement
- **C**ontinuous Love of Learning
- **C**ommunication that is Effective and a
- **S**afe and Respectful Environment

Mission:

The Mission of Heritage Community Charter School is to create an atmosphere of mutual respect where students feel safe and are challenged to become their best selves as they develop a curiosity and love of learning that will continue throughout their lives and prepares them for post-secondary education, careers, and service in their communities as well educated leaders who desire to preserve a democratic society and who act with integrity and character.

Philosophy:

Heritage Community Charter School's philosophy lies with the strong belief that all children can learn. It is our goal to prepare each student with personal tools that will assist them in life's choices. We do so by addressing the needs of the Whole Child – Body, Mind, and Spirit:

Body: The atmosphere of the school and the classrooms will reflect mutual respect so that students will feel empowered to take risks necessary for growth and learning. Mistakes will be seen as opportunities to learn and all ideas will be valued.

Teachers will possess positive attitudes necessary to shape and facilitate learning in the classroom through encouraging, believing in the students, caring and requiring excellence in every detail.

Mind: We will seek to challenge every student all of the time through a coherent and orderly classical education curriculum.

We will have high expectations of our students, and our teachers will possess knowledge and skill necessary to assist students in achieving those high expectations.

Students will learn to value knowledge for knowledge's sake.

Spirit: Students will develop the self-esteem necessary to allow them to achieve their personal goals and to become active, responsible members of their communities.

Staff members will develop a specific character education plan and calendar of activities and events each year that will help students and the HCCS community understand and implement the character traits identified. The HCCS administrator will present the plan and calendar to the board of directors for approval by July 1st of each year.

The goal of HCCS is also for students to leave our school bilingual and bi-literate in Spanish and English. We believe we cannot accomplish this by providing Spanish as a foreign language class. Our students will need to use the language to learn something every day in order to become proficient. Our plan is to provide immersion experiences for our students.

Our teachers will use research based strategies when teaching the core subjects. But they will also use those same strategies, along with research based strategies for second language learners, to teach some of the core concepts in Spanish. For example, elementary students will have a language arts block during the morning. And in the afternoon, during "Spanish class", they will have 45 minutes to learn an additional language arts lesson. But this lesson will be taught in Spanish using curriculum materials written in Spanish. Although teachers will be using similar strategies in both sessions, the experience for the student will be very different.

Heritage Community Charter School seeks to replicate the successful curriculum model of instruction and school culture implemented by Xavier Charter School in Twin Falls. The HCCS founders believe that the educational model utilized by Xavier has a proven record of success and the establishment of a charter school, in Canyon County, that seeks to develop students who are proficient in English and Spanish as well as meet high academic standards will provide an additional choice to families in Caldwell to meet the needs of their children and assist the traditional school district in successfully preparing students to contribute to our community in meaningful ways. The Heritage Community Charter School educational program will be exemplified by:

- the consistency of the instruction models used throughout K-12. Starting with direct instruction in the lower grades and progressing through to Socratic

Teaching, concept development, synectics and inquiry models; students will be able to recognize instructional models from grade to grade. Instruction will have the appearance of a spectrum, rather than a patchwork quilt. Students will be able to take those instructional techniques and incorporate them into learning strategies.

- the consistency of the cultural/climate expectations. Behavioral standards are the same for each classroom and teacher throughout the school.

Classical Education shall be defined as teaching by the same educational principles and toward the same educational pursuits as the ancients. To do so is known as the Trivium, Latin for “the three roads”. The three classical subjects are called Grammar (Elementary years), Logic (Middle School years), and Rhetoric (High School years). Levels of development in the classical sense are Knowledge, Understanding, and Wisdom. The picture is that human beings have three areas of mental capacity: one for gathering up information (Knowledge), a second for arranging the information in a logical order (Understanding), and a third for putting this information and this ordering to practical use (Wisdom). These three capacities are mutually dependent upon each other, but have a logical and developmental order between them. They all develop at the same time, from birth, yet they each pass through periods of intensive development until they finally meet each other and work harmoniously together.

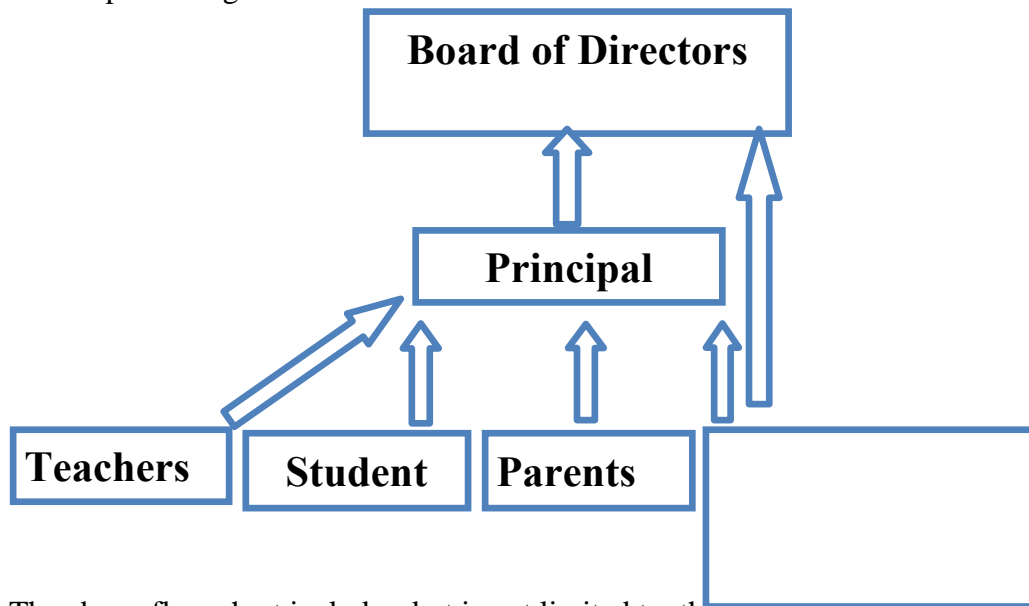

Socratic Teaching shall be defined as a powerful, teaching tactic for fostering critical thinking where the focus is on giving students questions, not answers. Teachers model the Socratic method by continually probing into the subject with questions directed at the student.

Synectics shall be defined as an approach to creative thinking that depends on understanding together that which is apparently different. Its main tool is analogy or metaphor.

TAB 2: PROPOSED OPERATIONS

Proposed Operations

The Heritage Community Charter School will function as a non-profit organization, organized and managed under the *Idaho Nonprofit Corporation Act*, as outlined in the school's Bylaws and Articles of Incorporation. Accordingly, the organizational flow chart representing the flow of information and the chain of command is as follows:

The above flow chart includes, but is not limited to, the following details:

- The Board, as a board, shall have the full power and duty to manage and oversee the operation of the Corporation's business.
- The Board of Directors will have the responsibility to approve the selection of the school Principal, who may not be one of its members. The Board also will be responsible for hearing, and approving or disapproving, the recommendations of the school Principal with respect to changes in staffing, programs, or curriculum.
- The Board of Directors and PTSO (Parent Teacher Student Organization) of Heritage Community Charter School may provide consultation to the Principal regarding ongoing plans for the school.
- The Board will, when necessary, adjudicate disagreements between parents and the administration.
- The Board is responsible to the authorized chartering entity directly.
- The Principal (Administrator) represents the Board of Directors of the Charter School as the liaison between the Board and the charter school.

- The Principal supervises, directly or indirectly, all employees of the charter school.

The school may hire staff or contract with a service provider for services such as transportation, food service, accounting, business management, or other business or educational services.

Target Student Population/Primary Attendance Area

The Primary Attendance Area of Heritage Community Charter School will include the following: the boundary of Caldwell School District, plus the intersection of Homedale Road and Farmway Road south to Orchard Avenue – Orchard Avenue East to Midway Road – Midway road north to Caldwell Boulevard – and Caldwell Boulevard northwest to Ustick Road. See image to the side.

Note: The “red” border indicates the boundary for Caldwell School District (boundary to the north). The “yellow” border (boundary to the south) indicates the additional area that combines with the district boundaries to constitute the Primary Area of Attendance.

Potential Effects on the District

Heritage Community Charter School will be located within the Caldwell School District

Boundaries and anticipates serving students from Caldwell, Vallivue, Nampa, Marsing and other small school districts within Canyon County.

Heritage Community Charter School plans to open in the fall of 2011 with two classes of 30 students each in grades K-6 (60 students per grade); one class of 30 students in grade 7; one class of 30 students in grade 8 and a total of 40 students in grades 9-12.

HCCS plans to expand grades 7 and 8 in the 2012-2013 school year to 60 students per grade. Maximum enrollment in HCCS will be 540 students. While the founders of

HCCS are sensitive to the struggles of public charter schools expanding into secondary education, the founders believe that offering a pilot secondary program beginning in the initial year of operation will give HCCS an opportunity to collect data and make adjustments that will allow the secondary program to be fully implemented and successfully functioning by the time the secondary program is full (the 2017-2018 school year). In addition, the founders of HCCS will be able to offer a unique secondary program designed to provide instruction in the core content areas utilizing the HCCS educational model. Planned expansion for grades 9-12, and/or increasing the number of students per grade in subsequent years will be dependent upon total enrollment, facility, budget needs, surveyed parental support, students' pre-registration and upon the approval from the Heritage Community Charter School Board of Directors.

The loss of ADA income (in local districts) due to HCCS's enrollment will be offset by the increase in projected population for Canyon County. In addition, HCCS expects to attract students currently enrolled in virtual charter schools and students currently participating in home schooling and will therefore minimally impact the Caldwell School District financially.

Although we recognize the strength of the local school district, there is a dual benefit a new public charter school will bring to our community. First, it will allow parents to choose a specific focus that meets the learning style and needs of their child. Second, parents make a conscious decision on where to have their child educated creating greater community buy-in to the educational process. This gain of choice not only benefits those attending public charter schools but also those attending traditional public schools. HCCS is proud to offer another choice of quality learning in a thriving, progressive School District. We are committed to remain a good neighbor in the educational community.

Facilities

We recognize the difficulties and resources needed to secure adequate facilities for public charter schools. With that in mind, we have selected several proposed locations for HCCS's future school facility. Upon approval, HCCS will develop a formal facility plan that takes into consideration our expected enrollment, staff size, revenues, and growth. Adoption of this facility plan will allow the Board of Directors to assess facility needs, evaluate and select a site, and explore our financing options.

Notwithstanding the likelihood of a modular campus in our early years, it will be the ultimate goal to provide a permanent structure that will meet the needs of the school's academic program. Due to the difficulties associated with financing in the current market, HCCS plans to utilize modular classrooms to meet its facility needs in the first few years of operation.

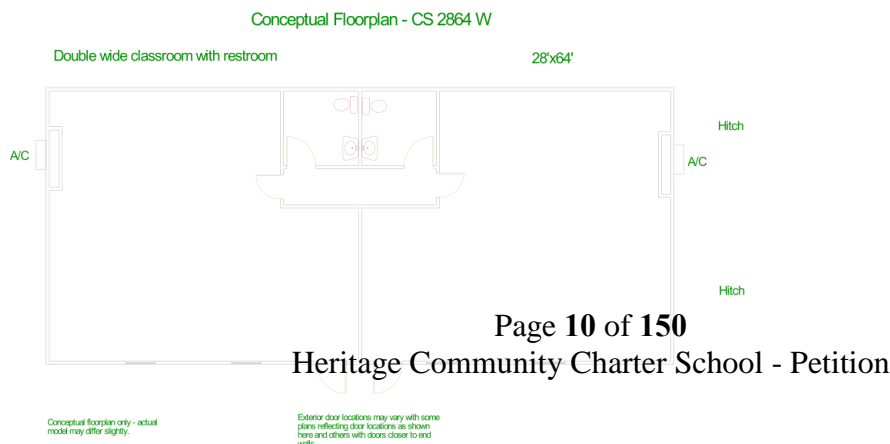

In an effort to select a site that will meet current and future needs, locations will be considered based on factors such as convenience for transportation, safety, diversity of the immediate surrounding neighborhoods, code requirements, access to major utilities, topography, affordability, etc.

Regardless of the location or type of facility, Heritage Community Charter School will acknowledge and certify that the facilities used will meet all requirements for health, safety, fire and accessibility prior to the opening of the school and will provide for the regular inspections of the facilities by authorized inspectors for the aforementioned compliance. Any facilities that the Board secures on behalf of the school will meet the legal requirements described above. For potential sites, *see* Appendix E.

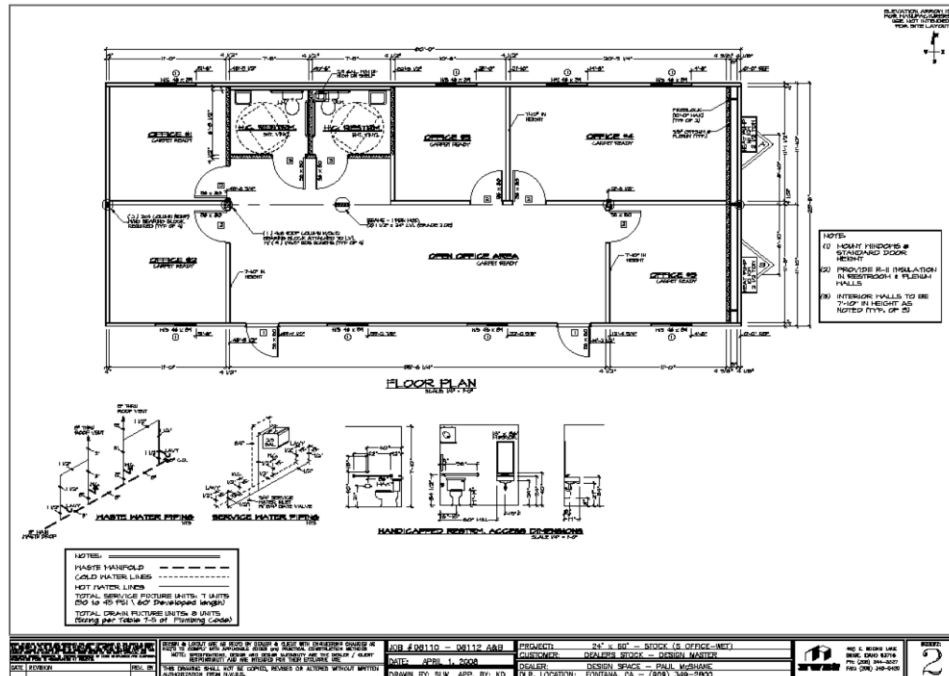

At this point, we have discussed our facility needs and received a commitment from a group of investors that are experienced in charter school facilities and are willing to assist us identify, secure, and develop a site that will accommodate our building needs (*See* Appendix L).

As part of our facility due diligence, we have also researched the specific zoning requirements applicable to any of the listed choices. In Caldwell, the municipal code provides that a charter school and all accessory buildings are considered a permitted use in any residential zoning district so long as certain requirements are met – examples include limitations on proximity to fire stations, industrial zones, airport overlay, etc. In the event our chosen site does not comply with the code restrictions, HCCS will go through the process of obtaining a special use permit with the city. While a special use permit would require additional time, it does provide HCCS with significant freedom if the most desirable location does not fit the parameters established for a permitted use.

The ultimate goal of Heritage Community Charter School will be to provide a facility in a convenient location that will both ensure the safety and enhance the education of our students. Due to the difficulties associated with financing in the current market, HCCS will likely utilize modular classrooms to meet its facility needs in the first few years of operation. We have spoken with several temporary classroom companies and have identified our needs and broken out our anticipated costs for the first several years of operation. For our first year, at a minimum we will seek modular units that contain restroom facilities, accommodate at least two classrooms, and have all the requisite permitting and licensing for the State of Idaho – a sample classroom floor plan is included above. We are aware of other units that accommodate more classrooms and can be more cost efficient, but their availability is limited. Therefore, for planning purposes, we will utilize a standard 28x64 two-classroom unit. In addition to the classroom space, we have included in our budget an administrative modular unit. This trailer will be used to house student records and will include a teacher break room, principal's office, secretary's office, etc. An example is provided below:

Tab 2: Proposed Operations

While the amount we have budgeted for our facility costs can be found in Appendix J, the following table provides a more detailed breakdown of HCCS's yearly expenses as it relates to the transportation, set up, development, and lease of its facilities in years one through three:

	July	Aug	Aug	Aug	Aug	Monthly Lease
	Delivery	Skirting	HC Install & Ramps	Block&Level	Anchors & Ramps	Lease
28x64 (2 Classrooms)	\$ 1,125	\$ 1,525	\$ 2,175	\$ 2,645	\$ 650	\$ 1,395
Year one costs per building			\$ 23,465			
Year 2 costs per building			\$ 16,740			
Land Lease/Year			\$ 70,000			
Best Case	Buildings Costs					
Year 1	11	\$ 319,365				
Year 2	11	\$ 254,140				
Year 3	11	\$ 254,140				
Worst Case	Buildings Costs					
Year 1	9	\$ 272,435				
Year 2	10	\$ 244,125				
Year 3	11	\$ 260,865				

Please take note: under both the best and worst case scenarios, the year one “costs” reflect 10.5 months of rent (beginning mid-August). Also note, the mobile administrative office building shown above is approximately \$400 less per month in rent; however, the difference was not included in an effort to provide flexibility in the event unforeseen costs arise.

As of the date of this submission, the HCCS board is waiting for additional documentation regarding its ability to secure land for its modular campus.

Administrative Services

Administrative services will be provided by the Heritage Community Charter School Principal supplemented by other contracted services as needed. Annual programmatic and financial reports will be presented to the Board of Directors and the authorized chartering entity. The Principal will also serve as the liaison between the Heritage Community Charter School and its Board of Directors, and parents. The Principal, in coordination with the Heritage Community Charter School Board of Directors, will determine the day-to-day operations of Heritage Community Charter School.

Potential Civil Liability & Insurance Commitment

The Idaho Public Charter School Commission (the “IPCSC”) shall have no liability for the acts, omissions, debts or other obligations of Heritage Community Charter School.

Heritage Community Charter School shall obtain its own liability insurance and insure its governing board, employees, contents, equipment, and fixtures against injury, damage, or loss. Additionally, both the facility provider and HCCS shall insure their respective interests against damage and for liability exposures with minimum limits of liability of not less than \$1,000,000 per person, \$5,000,000 aggregate or such limits as imposed by the State requirement or as otherwise determined by the board. All such insurance policies shall name Heritage Community Charter School as an additional insured and provide for at least ten (10) days written notice prior to cancellation. The facility provider and Heritage Community Charter School shall provide to each other certificates of insurance prior to the commencement date of facility occupancy evidencing such coverage.

All contract service providers are required to have adequate limits of liability insurance as determined by the board or other state requirement and shall maintain the same throughout any contract period. Heritage Community Charter School shall operate its business in conformance with all local, state and federal environmental laws.

Specific documentation of the above outlined requirements is contained in the respective insurance policies negotiated with the insurance providers.

TAB 3: EDUCATIONAL PROGRAMS

Educational Goals

It is the goal of Heritage Community Charter School to pursue a quest for excellence in all things ... for students, teachers and administrators. This lofty goal comes with the realization that excellence is never an accident – it comes from careful planning, exacting actions and precise follow through so that excellence becomes the norm, the habit that students, teachers and administrators will work toward every day.

This will be accomplished through strict adherence to the Thoroughness Standards.

Educational Thoroughness Standards

Standard 3. The basic values of honesty, self-discipline, unselfishness, respect for authority, and the central importance of work are emphasized.

Goal: Educate students as to classical views of self-command using traditional teaching methods so that each student will; recognize pillars of character, practice virtuous actions, and be able to differentiate between right and wrong

Objectives: Heritage Community Charter School will:

- Have teachers model desired behaviors and attitudes such as those set forth in the following Virtues (from *The Book of Virtues* by William J. Bennett), and Eight Expectations for Living:

Virtues –

Responsibility	Friendship	Compassion
Courage	Self-Discipline	Loyalty
Work	Perseverance	Honesty

Eight Expectations for Living –

1. We will value one another as unique and special individuals.
2. We will not laugh at or make fun of a person's mistakes nor use sarcasm or putdown.
3. We will use good manners, saying "please," "thank you," and "excuse me" and allow others to go first.

Standard 4. The skills necessary to communicate effectively are taught.

Goal: To equip each student with the necessary communication skills to prepare them for the 21st century.

Objectives: Heritage Community Charter School will:

- Emphasize students and teachers speaking in complete sentences and addressing one another by name, demonstrating mutual respect and common courtesy.
- Use enriched vocabulary that is drawn directly from classical education sources such as classic literature, myths, fables, poetry, proverbs, quotes, foundational writings and other genres.
- Emphasize and practice good listening skills and techniques
- Emphasize meaningful language experience through daily memory work, recitations and/or writing that are exuberant and full of expression

Elementary (Grades K-5):

The conviction that learning more than one language is important for every child guides HCC's commitment to a dual-language program. Language is not only a means to communicate and an instrument for thinking; it is also an important tool for understanding and appreciating the thoughts of others in our increasingly multicultural world. Knowing two languages is a marketable skill, thus expanding the individual child's later opportunities for constructive engagement with society.

There are cognitive benefits as well. According to Michael Rosanova, Ph.D., a professor of education at Chicago State University, a Montessori-certified teacher, and an expert in bilingual education, "Long term, children who have gone through an early childhood dual-language immersion experience show greater cognitive flexibility, greater facility in concept formation, greater creativity and problem-solving skills in verbal and math problems, and, obviously, a greater facility of vocabulary.

"Learning a language, however, occurs most effectively and efficiently at a very early age – young children are highly receptive to language acquisition, and second language learning comes most easily early on in a child's life."

Elementary students at HCCS will be at the perfect age for dual-language learning.

- **Secondary (Grades 6-8):**
The philosophy and purpose are the same for the secondary program with a greater emphasis on college preparation. Students who have completed five or more years of elementary instruction at HCCS should be able to demonstrate bi-literate proficiency. Core classes will be taught in English in the secondary program. Spanish instruction, however, may continue through elective classes if the board of directors determines the need for additional Spanish instruction. Students in grades 6-8 will receive instruction in Spanish which will prepare them for post-secondary study and enhance their overall understanding of languages.

Standard 5. A basic curriculum necessary to enable students to enter academic or professional-technical post-secondary educational programs is provided.

Goal: Help children establish strong foundations of knowledge, grade by grade through a solid, specific, shared core curriculum that will provide all children, regardless of background, with the shared knowledge they need to be included in our national literate culture.

Objectives: Heritage Community Charter School will:

- Use the Idaho State Board of Education's Standards as a foundation to be enhanced by the Core Knowledge Sequence. Develop a spectrum of instructional strategies that are research driven/data proven to ensure student learning, including but not limited to direct instruction, Socratic Teaching, concept development, synectics and inquiry models that are consistent throughout K-8.
- Use field trips and career development discussions when appropriate.
- Teach students as a whole group, thoroughly and to mastery, with intensive and specific modifications insuring success for all including identified special needs students.
- Expect teachers to "teach on their feet", meaning engaging students personally, adjusting instruction as necessary and holding high expectations of all students.

Curriculum Emphasis - Special Emphasis:

- **Elementary (K-5):** HCCS will offer a Spanish language program to enable students to become bilingual and bi-literate. The curriculum will incorporate theoretical foundations of bilingual education and second-language acquisition to implement effective program model. The goal of HCCS is for students to leave our school bilingual and bi-literate in both Spanish and English. The process for achieving that goal, however, will require that the school develop the capacity to provide Spanish instruction in phases. Full implementation will be achieved by the end of year 4 of operation.
- For draft implementation model, please see appendix I

- Oral language development will be the focus of the Spanish program in kindergarten, 1st and 2nd grades. Reading and writing in Spanish will be added in 3rd grade. Spanish as a Second Language (SSL) strategies will be used for those students who transfer to our school and are behind in their Spanish language development.
- **Secondary (6-8):** Students will receive instruction in core subjects in English. The founders believe that all students can learn and can achieve high standards. The school is committed to providing the support necessary for diverse learners to participate in the HCCS educational program. While our program focuses on a rigorous curriculum, HCCS will modify, adapt and design instruction to meet the needs of individual students when appropriate.
- HCCS will develop a rigorous secondary program designed to prepare students for success in post-secondary education and the workforce. The founders of HCCS believe that by beginning operations with a small, pilot secondary program of 100 students and expanding as each year's 5th graders move into secondary school, the school will be able to collect data and modify the program in order to effectively meet the needs of students and achieve the vision of HCCS. A draft secondary school program model is included in Appendix I.
- It is the goal of the HCCS founders to develop a robust dual credit program for secondary students that will allow students to finish a substantial number of college credits prior to high school graduation.

Standard 6. The skills necessary for the students to enter the workforce are taught.

Goal: Provide students with: communication skills so that they can interact with others; cultural literacy, so that they possess a reservoir of common facts, ideas and references known to all in the culture; and real world work related experiences. -

Objectives: Heritage Community Charter School will:

- Provide a strong foundation in classical education that includes basic reading, writing, science, social studies, and computational skills.
- Provide a technology-rich environment, encouraging the effective use of technology as a tool in the workplace of the 21st century.
- Enable students to develop the following intellectual habits important in the work place: adapting to new situations and responding effectively to new information; solving problems; locating and evaluating information from a variety of sources; making flexible connection among various disciplines of thought; thinking logically and making informed judgments.
- Enable students to develop the following personal habits important in the work place: accepting responsibility for personal decisions and actions; honesty, courage, and integrity; a healthy lifestyle; empathy, courtesy, and respect for differences among people; self-confidence; concentration and perseverance; responsible time management; assuming a fair share of the work load; and working cooperatively with others to reach group consensus.
- Provide students with jobs in their classrooms and throughout the school to teach

the importance of work, instill ownership in the school, and to help them learn the skills that they will need to enter the work force. These skills include taking instruction from supervisors, learning a task, and accomplishing a task in a timely manner.

Standard 7. The students are introduced to current technology.

Goal: Provide students with a technology-rich environment using tools such as computers, scientific equipment, and networks linked to local and nationwide resources.

Objectives: Heritage Community Charter School will:

- Use interactive technology as tools in an integrated educational program rather than as primary instructional delivery systems.
- Emphasize the acquisition of basic computer skills as a supplementary medium of communication and research to complement other approaches.
- Use computers as tools for such activities as accessing research information, authoring, computation, record keeping, data storage, and communication.

Standard 8. The importance of students acquiring the skills to enable them to be responsible citizens of their homes, schools, and communities is emphasized.

Goal: Provide students with opportunities to become involved in the community so as to develop the skills and understanding necessary to become responsible citizens in their respective jobs and communities of the 21st century.

Objectives: Heritage Community Charter School will:

- Enable students to develop habits of responsible citizens by following the guidelines outlined under Standard 3 with respect to the Life Principles and the Eight Expectations for Living.
- Enable students to understand and apply concepts and principles embedded in each of the social studies: history, geography, political science, economics and constitutional studies.
- Further enhance the ability of students to assess needs, prioritize in decision making, plan an approach, implement a plan, and evaluate the result as part of the community service aspect of the curriculum. This will take the form of the classroom community service projects:
 - K-5 – community projects established and supported by class parents
 - 6-8 – class sponsored community projects
- Plan for further growth in career guidance and development as we expand into the high school grades.

Heritage Community Charter School will achieve the Thoroughness Standards by: implementing a classical education curriculum that is Solid, Sequenced, Specific and Shared; by establishing a culture of great expectations of all students, faculty and

administration; and by developing a community of learning and professional development among the staff.

Definition of “Educated Person”

The “Educated Person” in the 21st Century will need to be a true learner of the world. The person must have the skill to learn, evaluate information and respond appropriately to challenges. In addition, the worker of tomorrow will need to possess life skills to allow him or her to become a successful member of the community. Communication is an essential part of an educated person’s life and the educated person strives to communicate with others effectively. To ensure the learning process, HCCS will concentrate on three areas: curriculum, climate and instruction.

How Learning Best Occurs

The founders of Heritage Community Charter School believe that learning best occurs in an environment that challenges students academically and encourages them to excel. HCCS believes that students will learn when provided with a strong foundation in the core content areas, language development opportunities and elective choices that are engaging. HCCS also believes that learning occurs best in an environment that promotes respect for others and strong character development. HCCS will provide students with this type of environment and educational opportunities designed to help all students succeed.

Curriculum Overview

For the sake of academic excellence, greater fairness, and higher literacy, schools need a solid, specific, shared core curriculum in order to help children establish strong foundations of knowledge, grade by grade. Heritage Community Charter School will remain aligned with the general goals and curriculum of the Idaho State Standards while incorporating the concepts of classical education as outlined here:

- **Solid Foundations** - Many people say that knowledge is changing so fast that what students learn today will soon be outdated. While current events and technology are constantly changing, there is nevertheless a body of lasting knowledge that should form the core of the curriculum. Such solid knowledge includes, for example, the basic principles of constitutional government, important events of world history, essential elements of mathematics and of oral and written expression, widely acknowledged masterpieces of art and music, and stories and poems passed down from generation to generation.
- **Sequenced** - Knowledge builds on knowledge. Children learn new knowledge by building on what they already know. Only a system that clearly defines the knowledge and skills required to participate in each successive grade can be equitable and fair for all students. For this reason a clear outline of content to be learned grade by grade will be developed. This sequential building of knowledge not only helps ensure that children enter each new grade ready to learn, but also helps prevent the many repetitions and gaps.
- **Specific** – A classical education curriculum sequence is distinguished by its specificity. By clearly specifying important knowledge in language arts, history

and geography, math, science, and the fine arts, the curriculum presents a practical answer to the question, "What do our children need to know?"

- Shared - Literacy depends on shared knowledge. To be literate means, in part, to be familiar with a broad range of knowledge taken for granted by speakers and writers. For example, when sportscasters refer to an upset victory as "David knocking off Goliath," or when reporters refer to a "threatened presidential veto," they are assuming that their audience shares certain knowledge. One goal of the curriculum will be to provide all children, regardless of background, with the shared knowledge they need to be included in our national literate culture.

Character Education/School Climate

It is with the realization that no matter how good a curriculum is, no matter how prepared the teachers are, and no matter how new, updated and technologically advanced a facility is, if there is not the belief that every child can learn, and every teacher can make a difference, then all is for naught.

With this in mind, HCCS will strive to follow the "Great Expectations" Life Principles and the Eight Expectations for Living as outlined in Thoroughness Standard #3.

The Great Expectations Model is guided by six basic Tenets. These Tenets provide guidelines for training and implementation and serve as standards for evaluating the school, teachers and staff. The Tenets are as follows:

- High Expectations - Teachers must hold high expectations of students. When students recognize those expectations, they will respond by reaching upward to achieve them.
- Teacher Attitude and Responsibility - Teachers who have positive attitudes possess the influence necessary to shape the attitudes of students. The teacher's attitude is one of a facilitator of learning who encourages and believes in students, and who requires excellence in every detail.
- All Children Can Learn - All children can learn no matter what labels are placed upon them, whether it is learning disabled, low socioeconomic status, unstable home life, inner-city, or rural.
- Building Self-Esteem - Building self-esteem is the key to helping students believe they are capable of learning and motivating them to try.
- Climate of Mutual Respect - Students are empowered to take risks necessary for growth when encompassed in a climate of mutual respect in which mistakes are seen as opportunities to learn and their ideas and efforts are appreciated. The teacher must extend the same respect to students that he/she desires to receive from them.
- Teacher Knowledge and Skill - The teacher must be knowledgeable and skillful in learning theory and teaching methods that enable students to achieve academic and social success.

With the Tenets comes Seventeen Classroom Practices to guide implementation of the ideal into each classroom. Consistency from classroom to classroom will be the hallmark for HCCS.

Classroom Practices:

1. The teacher models desired behaviors and attitudes such as those set forth in the Life Principles and the Eight Expectations for Living.
2. Students and teachers speak in complete sentences and address one another by name, demonstrating mutual respect and common courtesy.
3. Students are taught as a whole group, thoroughly and to mastery, with intensive and specific modifications insuring success for all.
4. Lessons are integrated, related to the real world, reviewed consistently, and connected to subsequent curricula.
5. Critical thinking skills are taught.
6. A non-threatening environment, conducive to risk-taking, is evident. Mistakes are okay. Students are taught to learn from their mistakes and to correct them.
7. Memory work, recitations, and/or writing occur daily. These enhance character development and effective communication skills while extending curricula. Recitations are exuberant and full of expression.
8. Enriched vocabulary is evident and is drawn directly from challenging writings and/or wisdom literature. Sources should include classic literature, myths, fables, poetry, proverbs, quotes, and other genres.
9. The Magic Triad (a kind word, a gentle touch and a smile), a positive and caring environment, and discipline with dignity and logic are evident.
10. Every student's work is displayed in some form. Teachers provide positive commentary through oral and/or written feedback.
11. Word identification skills are used as a foundation for expanding the use of the English and Spanish languages.
12. Students assume responsibility for their own behavior. Their choices determine consequences.
13. A school, class, or personal creed is recited or reflected upon daily to reaffirm commitment to excellence.
14. All students experience success. The teacher guarantees it by comparing students to their own past performance, not the performance of others. Students are showcased, and past failures are disregarded.
15. The teacher teaches on his/her feet, engages students personally, holds high expectations of students, and does not limit them to grade level or perceived ability.
16. Teachers and students celebrate the successes of others.

Parent Involvement

Enrollment at Heritage Community Charter School will provide unique and meaningful opportunities for parental involvement by actively encouraging parent participation in HCCS's Parent Organization, involvement in school management and volunteer work.

HCCS encourages all of our parents to be highly involved in their child(ren)'s education and in the Heritage Community. HCCS understands that parent involvement may look different for each family and values all efforts parents make to support their child's education. Some examples of parent involvement may include:

- Asking your child what he/she learned in school each day
- Reviewing your child's homework with him/her
- Reading with your child
- Attending semester conferences
- Communicating with your child's teacher by phone, email or in person
- Volunteering at the school
- Helping the school with activities

HCCS Parent Teacher Student Organization

Parents/Guardians and grandparents of HCCS students may become members of the HCCS Parent Teacher Student Organization.

Members of the HCCS Parent Teacher Student Organization will:

- ☐ Potentially serve on a board appointed task force or committee to investigate and research specific items related to school policy, procedure, programs, and curriculum.
- ☐ Executive members of the Organization will be encouraged to attend the governing board meetings.
- ☐ Volunteer time to the school.
- ☐ Organize volunteer opportunities and potentially produce a monthly newsletter.
- ☐ Organize fundraising opportunities.
- ☐ Background checks, where applicable, will be performed on volunteers working with students.

Students at HCCS may participate in a student government organization. Students will have a minimum of one representative from the student government organization attend the Parent Teacher Student Organization monthly meeting.

Volunteer Time

HCCS will rely on parents and their willingness to volunteer their time to assist with the daily operation of the school as well as after school programs. Parent volunteerism is strictly optional, but it is encouraged for the benefit of the students. The school will regularly distribute volunteer information to parents that will allow them to sign up for service in areas of expertise or interest. This will allow parents to provide the most meaningful service, and simultaneously provide the school with the ability to coordinate parent service with school needs. Additionally, the school will advertise specific assistance in its newsletter and website when needed.

HCCS can also appoint a committee member to schedule and coordinate volunteer services for parents who wish to donate their time to the school. This individual will be

charged with maintaining parent volunteer information and notifying parents of opportunities at the school. Examples of parent volunteer opportunities include but are not limited to:

Recess assistance	Playground monitoring
School tours	Computer lab assistant
Computer support	Field trips
At-home repair of student wear	Fundraising
Daily cleanup	Traffic/Parking assistance
Classroom aid/support	Building maintenance
At-home work for teachers	Set construction & design
Baking dishes for special events	Library assistance
Assembly Support	Parent Organization

The foregoing list is non-exhaustive and may change from time to time on an “as-needed” basis.

Instructional Model

Similar to the curriculum, instructional models must be solid, sequenced, specific and shared. Solid in that models used must be proven, data supported techniques that intensify the learning experience for students. Sequenced so that what is started in Kindergarten, continues throughout each grade, adapting and changing as needed for each new grade level, but recognizable none the less. Specific so that it targets each topic, so that teaching is with a purpose. And Shared – HCCS will establish itself as a learning community of teachers – each one teaching and learning from each other.

Logistically, each teacher will be on a rotation to receive specific, targeted professional development approved by the Board of Directors that supports HCCS’s vision and mission statements. They in turn will be the mentors/instructors of that professional development to the rest of the staff. This will insure that not only will each teacher will receive quality professional development every few years. Each teacher will have the responsibility and opportunity of being a team leader for Heritage Community Charter School.

Targeted initial instructional professional development will be obtained from Great Expectations, Core Knowledge, and in dual language instruction and/or others as recommended by the Principal and teachers and approved by HCCS’s Board of Directors.

HCCS will explore opportunities to provide enrichment and remediation programs before school, after school and during school breaks to allow students to receive additional support for instruction. HCCS will also develop a peer tutoring or mentoring program that allows elementary students to work with secondary students to build upon students’ knowledge and skills in the content areas and to enhance the HCCS community by developing cross-grade level relationships. HCCS secondary students will be required to participate in the peer mentoring program in order to fulfill community service requirements for specific secondary classes.

Special Education Services

Heritage Community Charter School will comply with the Individuals with Disabilities in Education Act (“IDEA”), Section 504 of the Rehabilitation Act (“Section 504”), and the Americans with Disabilities Act (“ADA”).

To ensure the provision of a free and appropriate public education to all school-age children in need of Special Education Services, Heritage Community Charter School provides a Special Education Program in accordance with federal and state regulations and guidelines. Specifically, Heritage Community Charter School adopts and complies with the current Idaho Special Education manual from the State Department of Education. To the best of our knowledge this manual reflects IDEA guidelines and Special Education Best Practices. The Heritage Community Charter School Principal will designate a certified employee to serve as the Section 504 Compliance Officer.

It is the intent of Heritage Community Charter School to identify, locate, and evaluate all enrolled children who may have disabilities. Disability, in this instance, includes, but is not limited to, such conditions as hearing impairments, visual impairments, speech or language impairments, specific learning disabilities, emotionally disturbed, multiple disabilities, cognitive disability, other health impairments, physical impairments, autism, and traumatic brain injury.

HCCS will strive to obtain IEPs for students enrolled in the charter school prior to the beginning of each school year. The HCCS administrator, office staff and special education staff will review the list of students enrolling at HCCS after the annual enrollment deadline and subsequent lottery each year and will collect information regarding IEP and 504 plans after students have confirmed that they will be attending HCCS. HCCS staff will strive to obtain copies of IEP and eligibility documents prior to August 1st of each year whenever possible so that staff can plan for instruction and services to begin immediately when the school year begins. HCCS staff will utilize information from documents obtained to plan for instruction, related services, accommodations, evaluations and IEPs that are necessary to ensure students with disabilities receive a free appropriate education in the least restrictive environment as defined by the student’s IEP.

HCCS will contract with related service providers for some services and will have those contracts in place and approved by the Board of Directors prior to the beginning of each school year. In addition, the HCCS administrator and the HCCS special education staff will plan an annual in-service training that they will provide to staff members each year, prior to the beginning of school, to ensure that all HCCS staff have access to and an understanding of information in each student’s IEP and can work together to implement the IEP.

Every year starting in August and continuing throughout the year, Heritage Community Charter School will make a concerted effort to identify children with disabilities. The September in-service shall be a review of special education requirements, regulations and obligations so that Heritage Community Charter School is alert to the needs of the

children for whom it is responsible. The assistance of all staff members and agency personnel in this process is essential to accomplish this task, and they must work to ensure that this goal and responsibility are achieved.

Heritage Community Charter School asks for information about each child that is identified to establish answers to such questions as:

- What is the challenge?
- What has already been done about the challenge/what interventions have been used?
- What background information is available?

This information may be collected in several ways including interview, observations, screening, and testing. This information may be obtained from parents and the student, or from other agencies that have information about the student. This information will be reviewed by a multidisciplinary team to determine whether further evaluation is needed and/or whether the child meets the eligibility requirements to receive special education services.

All information collected will be held in strict confidence and released to others only with parental permission or as allowed by law. Parents may have a copy of any records kept upon request. A copy of the *Procedural Safeguards Notice* from the Idaho Special Education Manual will be provided to parents of Special Needs students each year in accordance with the Individuals with Disabilities Education Improvement Act of 2004 (IDEA 2004).

Heritage Community Charter School keeps a record of all persons who review confidential records and also maintains a list of employees who may have access to records. When the information collected, maintained, or used is no longer needed to provide educational services to the child, the parents will be informed.

Parents and students have rights in this process. Parents have the right to:

- Review their child's records
- Refuse permission to release information (except as required by, or permitted by, law to be released)
- Request that information they believe to be inaccurate, misleading, or in violation of their child's privacy or other rights be changed. Requests for changing information in a students' record must be made to Heritage Community Charter School in writing, not by email. Response from the school to the request will be made within a reasonable time. If the school makes a decision not to change the information, the parents/guardian may request a district hearing following the process outlined in the Idaho Special Education Manual from the State Department of Education.

Heritage Community Charter School appoints one person to make sure that information archived on the students is kept confidential and also has a system that assures a practical method of identifying which children are currently receiving special education services

and which children are not. Certain data regarding children are maintained within this system.

If a student at Heritage Community Charter School is found to be eligible for special education services at the charter school, services will be provided for that student as determined by the student's IEP team and in accordance with state and federal regulations:

- Heritage Community Charter School will form a multidisciplinary team to consider a student's eligibility for special education. If the team determines the need for an evaluation by personnel, such as a school psychologist, speech therapist, or occupational therapist, not currently employed by HCCS, such evaluation may be contracted with a private provider or local school district.
- A certified special education teacher will be responsible to monitor Individual Education Plans (IEPs) and supervise the implementation as written. The special education teacher, or an educational assistant under his/her supervision, will provide services as described by the student's IEP. The special education teacher will consult with the general education staff to utilize effective classroom interventions, adaptations, and modifications.
- Related services, such as speech or language therapy, behavioral therapy, occupational therapy, or transportation, refer to those services necessary for a student to benefit from his or her education and will be provided as determined by the student's IEP team.

Heritage Community Charter School will provide special education and related services to eligible Heritage Community Charter School students in the Least Restrictive Environment as identified by each student's IEP. Heritage Community Charter School's IEP team, inclusive of the parent, will be responsible for identifying and providing the LRE as outlined in the IEP.

When necessary, Heritage Community Charter School will contract with a private provider or local school district for the provision of related services. Direct speech, language, behavioral, or OT services may be provided by a paraprofessional under the direct supervision of a licensed therapist. The supervision of paraprofessionals will be outlined in the student's IEP.

- In the event that the IEP team determines that the student's academic needs cannot be met on site, Heritage Community Charter School may contract with a local school district or private provider to provide services.

The HCCS board of directors understands that a dual language program may present additional challenges for students with disabilities. The HCCS board believes that this is an opportunity to train staff members to effectively identify each individual student's strengths and needs and develop a plan with goals that are designed to meet that individual student's needs. HCCS will provide specific training to staff members to

ensure that IEP teams can identify students with language proficiency needs, students with disabilities and students with both language proficiency needs and disabilities. Staff will be trained to create appropriate educational plans for students' needs. Staff will also be trained to provide appropriate interventions, accommodations and modifications as identified by multi-disciplinary and/or IEP teams.

Few legislative mandates of the federal government have such far-reaching implications for local school districts. The school is committed to working with the community in providing services that meet the individual needs of each child.

Implementing IDEA disciplinary procedures

The discipline procedures adopted in the Idaho Special Education Manual will be utilized in disciplinary matters for students with disabilities attending HCCS. These adopted policies and procedures will meet the requirements of the IDEA. The HCCS administrator will review these policies and procedures annually; obtain training (when necessary) to ensure he or she follows these procedures, and provide training to HCCS staff in the requirements of IDEA with regard to discipline of students.

The Role of General Education Teachers in Regard to Special Education

All special education students will remain in the "regular" class unless otherwise indicated on their IEPs. They are included in all class activities. Teachers will maintain a minimum monthly conference with the special education student's parent/guardian. "Parent" will be defined according to IDEA 34 CFR 300.30. The special education teacher will collaborate a minimum of 1 time per week with the general education teacher. Teachers are included in the student's IEP conference. IEP meetings shall be held annually and teachers will be given advanced notice of the date and time for these meetings. Teachers need to sign the child's IEP as the regular classroom teacher. If the teacher monitors the goals of this IEP and does quarterly progress reports on the status, the IEP can benefit the teacher in understanding the child's special needs and the focus taken in the delivery of services to the child.

The special education teacher will contact the regular classroom teacher(s) on an "as needed basis" (but no less than once per month) to provide the teacher with specific IEP information regarding each student with a disability; provide updates; discuss progress, and answer questions. The teacher should contact the special educator with questions or concerns as soon as possible once a question or concern arises. Working as a team with special needs students is critical in ensuring that each student's needs are met.

Limited English Proficiency

In addition, students attending Heritage Community Charter School with limited English proficiency, (LEP) will be assessed using the Home Language Survey to determine the

extent to which they may require Title III services or a LEP instructor. Every effort will be made to help the student attain proficiency in the English language.

Heritage Community Charter School will apply the federal definition of Limited English Proficient (LEP) as defined in Title III and IX of the ESEA. Students who are eligible for the LEP program will participate in the LEP program according to state and federal guidelines. State and federally mandated testing of LEP students will be administered. The *Guidance for Evaluating Limited English Proficient (LEP) Students to Establish Special Education Eligibility*, provided by the Idaho Department of Education, will be used for identifying Special Education LEP students.

Heritage Community Charter School will follow the Idaho LEP Program guide and administer the Access 2.0 for student placement as well as monitor student growth. The following guidelines will be used for the Home Language Survey in order to identify Primary Home Language Other Than English (PHLOTE) students.

Home Language Survey (HLS)

- ☐ A survey will go home to the parents of all students.
- ☐ If the survey comes back indicating that a student may be Limited English Proficient (LEP), the student will be tested with an English language proficiency test within 30 days of registration or within 2 weeks of entry into the school (if during the year.)
- ☐ If the student tests less than proficient on the English language proficiency test, then a letter will go home to the parents indicating that their child was identified as needing specific English language services. The parent will be given the opportunity to waive the services, if desired.
- ☐ If the parent does not waive the Limited English Proficiency (LEP) services for their child, then the student will be placed in a program of “high quality language instruction, based on scientifically based research” (Section 3115 (c) (1)), as determined by Heritage Community Charter School.
- ☐ Those children placed in a program will be counted for state and Federal funding.
- ☐ Once a student tests proficient on the English language proficiency test, they will be exited from the LEP program and monitored for 2 years. Students on monitoring status will be coded LEP on the ISAT and still counted for state and Federal funding purposes.
- ☐ Those students whose parents waive the services may not be considered as “LEP” for state and Federal funding purposes and ISAT coding. However, they are still English language learners and must still be served according to their needs, according to the Office of Civil Rights.

Gifted and Talented Students

HCCS shall identify and provide reasonable services to students who possess demonstrated or potential abilities that give evidence of high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts, and those students who require services or activities not ordinarily provided

by the school in order to more fully develop such capabilities. HCCS will utilize eligibility criteria developed by the Idaho Department of Education as stipulated in Idaho Code 33-2003. The HCCS educational program will support the needs of gifted and talented students through its highly challenging curriculum. HCCS will also utilize the services of the Idaho Center on Disabilities and Human Development (CDHD) to ensure that gifted and talented students at the school are properly identified and provided with appropriate instruction.

Plan for Dual Enrollment Participation

Students enrolled in the charter school shall be allowed to participate in dual enrollment with traditional public schools as required by Idaho Code 33-203. Dual enrollment options will be subject to district procedures as allowed in Idaho Code 33-203 (1).

Parents will be provided information concerning dual enrollment options and requirements in accordance with the local school district policies. State funding of a dually enrolled student will be only to the extent of the student's participation in the public school programs. The HCCS board will adopt a dual enrollment policy and procedures for dual enrollment.

Dual enrollment shall include the option of enrollment in a post-secondary institution. Any credits earned from the accredited post-secondary institution shall be credited toward graduation requirements as outlined in HCCS Board Policy.

TAB 4: MEASUREMENT OF PROGRESS

HCCS will seek to achieve this by providing enjoyable learning experiences, a progressive educational program in core subjects, and a bi-literate curriculum – all in an environment of respect, parental involvement, and a strong sense of community.

Method by which student progress will be measured

HCCS students will participate in state required assessments which will be used to measure progress in meeting state standards. In addition, HCCS will use classroom assessments, progress monitoring tools and data collection designed to monitor each measurable educational standard to assess individual, grade level and school progress in meeting the standards identified within the HCCS charter. Regular reports regarding progress will be provided to the HCCS board at the end of each semester.

Measurable student educational standards

Standard 1: Students at Heritage Community Charter School enrolled continuously from the beginning of the school year, will show annual academic improvement.

Standard 2: HCCS will achieve a daily average school absentee rate of less than 10% when calculated on a monthly basis.

Standard 3: Students will be able to recite a school, class, or personal creed after 6 consecutive months at Heritage Community Charter School assessed by the classroom/advisory teacher using the following measurements:

Grades K – 5:

- 85% of students participating in a flawless recitation of a school or class creed as part of a whole group (class) setting.
- 85% of students individually reciting a grade appropriate class creed flawlessly, with a maximum of two prompts.

Grades 6-12

- ☐ 85% of students participating in a flawless recitation of a school or class creed as part of a whole group (class) setting.
- ☐ 85% of students individually reciting a flawless class or personal creed.

Standard 4:

- 95% of 8th grade students will develop a 4-year plan including a four year high school plan as part of their career portfolio.

“The capacity to become cooperative contributors of society”

Standard 5: 90% of students will participate in a yearly community service project as outlined:

- K-5 – community projects established by teachers and supported by parents
- 6-8 – class-sponsored community projects

Standard 6: HCCS will achieve above average parent and student satisfaction as measured by completion of an annual parent and student satisfaction survey.

- HCCS parents will be encouraged to complete a parent satisfaction survey each school-year. Parent satisfaction ratings will be calculated in each of the following areas: Academic Program, Parent and Community Relations/Communication, Administration and Board Activity, General School Operations. Survey results will be examined by the school administrator, school leadership team, and the Board of Directors to identify areas of strength and areas for improvement.
- A minimum of 75% of HCCS students in grades 3rd - 8th will complete a student satisfaction survey at least once a year. Student satisfaction ratings will be calculated in each of the following areas: Academic Program, School Culture, Faculty/Administrative and Student Relations/Communication. Survey results will be examined by the school administrator, school leadership team, and the Board of Directors to identify areas of strength and areas for improvement.
- During the first year of operation, HCCS will collect baseline data regarding parent participation in parent involvement events.

Enrollment Opportunities *I.C. 33-5205(3)(s)*

The Governing Board will take the following steps to ensure the Caldwell community is aware of the enrollment opportunities at Heritage Community Charter School: while taking into consideration the language demographics of the attendance area, at least three (3) months in advance of the enrollment deadline, enrollment information will be posted in highly visible and prominent locations within the HCCS attendance area. In addition, the Governing Board shall ensure that such process includes the dissemination of press releases or public service announcements to media outlets that broadcast within, or disseminate printed publications within, the attendance area of HCCS. The Governing Board will ensure that such announcements are broadcast or published by such media outlets on not less than three (3) occasions, beginning no later than fourteen (14) days prior to the enrollment deadline each year. Finally, such enrollment information shall advise that all prospective students will be given the opportunity to enroll in HCCS, regardless of race, color, national or ethnic origin, religion, gender, social or economic status, or special needs.

Caldwell District Demographics

HCCS seeks to provide a unique opportunity for students residing within the Caldwell community. The Founders of HCCS are committed to continuing the positive relationship with the Caldwell School District that the charter petitioners have enjoyed during the development phase of the charter school. HCCS anticipates serving as another unique educational choice in a district committed to meeting the needs of all of its students. In addition, HCCS will strive to serve a population of students that is similar in its demographic characteristics to that of the Caldwell School District. HCCS will plan marketing efforts designed to provide information to all community members in both English and Spanish and in a variety of formats (written, radio, television, community meetings, etc.). Marketing efforts will be designed to attract a student population that is consistent with the demographics of the District (within a plus or minus 10%) of the percentage of any group by ethnicity, ELL, free and reduced lunch, special education, etc. while also complying with Idaho Code regarding enrollment procedures.

Enrollment Deadline

Each year the Governing Board shall establish an enrollment admissions deadline, which shall be the date by which all written requests for admission to attend HCCS for the next

school year must be received. The enrollment deadline cannot be changed once the enrollment information is disseminated.

Requests for Admission

HCCS will comply with Section 33-5205(3)(j) of the Idaho Code to establish policy and procedure for admission. A parent, guardian, or other person with legal authority to make decisions regarding school attendance on behalf of a child in this state, may make a request in writing for such child to attend HCCS. In the case of a family with more than one (1) child seeking to attend HCCS, a single written request for admission must be submitted on behalf of all siblings. The written request for admission must be submitted to, and received by, HCCS on or before the enrollment deadline established by the Governing Board. The written request for admission shall contain the name, grade level, address, and telephone number of each prospective student in a family. If the initial capacity of HCCS is insufficient to enroll all prospective students, then a lottery shall be utilized to determine which prospective students will be admitted to HCCS. Only those written requests for admission submitted on behalf of prospective students that are received prior to the enrollment deadline established by the Governing Board shall be permitted in the lottery. Only written requests for admission shall be considered by the Governing Board. Written requests for admission received after the established enrollment deadline will be added to the bottom of the waiting list for the appropriate grade. If there is an opening in one grade, a sibling, if any, from a late submitted application must go to the bottom of the sibling list.

Admission Preferences *I.C. 33-5206 & 33-5205(3)(j)*

HCCS has established an admission preference for students residing within the primary attendance area of the school. In addition, HCCS has established admission preferences for returning students, for children of founders and full-time employees of the school, and for siblings of students already selected to attend the school.

Priority of Preferences for Initial Enrollment

If the initial capacity of HCCS is insufficient to enroll all prospective students, a lottery shall be utilized to determine which prospective students will be admitted to HCCS. HCCS will follow Idaho Code Section 33-5205(3)(j). Prospective students will be placed in priority groups as follows:

- a. First, to the children of founders and full-time employees (provided that this admission preference shall be limited to not more than ten percent (10%) of the initial capacity of HCCS).
- b. Second, to siblings of pupils already selected by the lottery.
- c. Third, to prospective students residing in the primary attendance area of HCCS.
- d. Fourth, students who reside outside the primary attendance area of HCCS.

Priority of Preferences for Subsequent Enrollment Periods

Preferences for subsequent enrollment periods shall be as follows:

- a. First, to pupils returning to HCCS in the second or any subsequent year of operation. Returning students are automatically enrolled in the appropriate grade and do not need to be selected by a lottery.
- b. Second, to children of founders and full-time employees provided that this admission preference shall be limited to not more than ten percent (10%) of the capacity of HCCS.
- c. Third, to siblings of pupils already enrolled in HCCS.
- d. Fourth, to prospective students residing in the primary attendance area of HCCS.
- e. Fifth, to prospective students residing outside the primary attendance area of HCCS.

Proposed Attendance List for Lottery

Each year the Governing Board shall create an attendance list containing all the names of all prospective students on whose behalf a written request for admission was timely received by HCCS, separated by grade level. In addition, the proposed attendance list shall contain columns next to the name of each student, in which the Governing Board will designate admission preferences applicable to each prospective student. The columns shall be designated “A” for returning student preference; “B” for children of founders and full time employees preference; “C” for sibling preference, with a corresponding cross-reference to each of the siblings of the prospective student; and “D” for primary attendance area preference, and “E” for students residing outside the primary attendance area.

Equitable Selection Process

If the initial capacity of HCCS is insufficient to enroll all prospective students, or if the capacity is insufficient to enroll all prospective students in subsequent school years, then the Governing Board shall determine the students who will be offered admission to HCCS by conducting a lottery. The selection procedure, unless otherwise determined by the Governing Board and then approved by the school’s authorizer, shall be conducted as follows:

The name of each prospective student on the proposed attendance list shall be individually affixed to or written on a three by five (3x5) inch index card. The index cards shall be separated by grade. The selection procedure shall be conducted one (1) grade level at a time, with the order of grade levels selected randomly. The index cards containing the names of the prospective students for the grade level being selected shall be placed into a single container.

A neutral, third party shall draw the grade level to be completed first and then draw each index card from the container for that grade level, and such person shall write the selection number on each index card as drawn, beginning with the numeral “1” and continuing sequentially thereafter. In addition, after selecting each index card, the name of the person selected will be compared to the proposed attendance list to determine whether any preferences are applicable to such person.

If the name of the person selected is a returning student, then the letter “A” shall be written on such index card. If the name of the person selected is the child of a

founder or full-time employee, the letter “B” shall be written on such index card. If the name of the person selected is the sibling of another student that has already been selected for admission to the public charter school, the letter “C” shall be written on such index card. If the name of the person selected resides in the primary attendance area of the public charter school, then the letter “D” shall be written on such index card. If the name of the person selected resides outside the primary attendance area of HCCS, then the letter “E” shall be written on such index card.

With regard to the sibling preference, if the name of the person selected has a sibling in a higher grade who has already been selected, but the person previously selected did not have the letter “C” written on his or her index card (because a sibling had not been selected for admission prior to the selection of the index card of that person), then the letter “C” shall now be written on that person’s index card at this time.

With regard to the founder’s and full-time employee’s preference, a running tally shall be kept during the course of the selection procedure of the number of index cards, in the aggregate, that have been marked with the letter “B”. When the number of index cards marked with the letter “B” equals ten percent (10%) of the proposed capacity of HCCS for the school year at issue, then no additional index cards shall be marked with the letter “B,” even if such person selected would otherwise be eligible for the founder’s and full-time employee’s preference.

After all index cards have been selected for each grade, then the index cards shall be sorted for each grade level in accordance with the following procedure. All index cards with the letter “A” shall be sorted first, based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “B,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “C,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “D,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “E,” based on the chronological order of the selection number written on each index card; followed finally, by all index cards containing no letters, based on the chronological order of the selection number written on each index card.

After the index cards have been drawn and sorted for all grade levels, the names shall be transferred by grade level, and in such order as preferences apply, to the final selection list.

Within sixty days of approval of this charter, the HCCS board of directors will develop and adopt a definition of “Founders”. That definition will include, but not be limited to, those persons:

- sitting on the Board of Directors from January 2010 to June 2011 and/or
- involved in the initial writing of the petition for Heritage Community Charter School and/or

- Those individuals who have made a significant contribution to the development and establishment of Heritage Community Charter School as deemed by the Board of Directors.

VIII. Final Selection List

The names of the persons in highest order on the final selection list will have the highest priority for admission to Heritage Community Charter School in that grade, and will be offered admission to Heritage Community Charter School in such grade until all seats for that grade are filled.

Notification and Acceptance Process

HCCS will comply with Idaho State Board of Education Rules Governing Public Charter Schools IDAPA 08.02.04 for the Notification and Acceptance Process.

1. Within seven days after conducting the selection process, Heritage Community Charter School will send an offer letter to the parent or guardian, who submitted an admission request on behalf of the student, advising the person that the student has been selected for admission to Heritage Community Charter School. The offer letter must be signed by the student's parent or guardian, and returned to HCCS by the date designated in the offer letter from HCCS.
2. Within seven days after conducting the selection process, Heritage Community Charter School will send a letter to the parent or guardian, or other person who has submitted an admission request on behalf of the student, advising them that the perspective student is not eligible for admission, but will be placed on a waiting list and may be eligible for admission at a later date if a seat becomes available.
3. If a parent, guardian, or other person receives an offer letter on behalf of a student and declines admission, or fails to sign and return the offer in a timely manner by the date designated in the offer letter, then the name of that student will be stricken from the final selection list, and that seat will be made available to the next eligible student on the final selection list.
4. If a student withdraws from Heritage Community Charter School during the school year for any reason, then the seat that opens in that grade will be made available to the next eligible student on the final selection list.

X. Subsequent School Years

HCCS will comply with Idaho State Board of Education Rules Governing Public Charter Schools IDAPA 08.02.04 for Subsequent School Years.

The final selection list for a given school year will not roll over to the next subsequent school year. If the capacity of Heritage Community Charter School is not sufficient to

enroll all prospective students during the next subsequent school year, then a new equitable selection process will be conducted by Heritage Community Charter School for that year.

All prospective students who miss the enrollment deadline will be placed at the bottom of the final selection list in the order in which they are received. They will only receive admittance to HCCS when all prospective students on the final selection list have been given the option of acceptance and there are still vacancies in the grade level needed.

XI. Amendments

Heritage Community Charter School has the right to amend these admission procedures as needed with the approval of the Authorized Chartering Entity. Any changes will conform to the laws of the State of Idaho and applicable rule of the State Board of Education.

Disciplinary Procedures

Respectful behavior and kindness, with an emphasis on politeness, honesty, and integrity, is the number one expectation for Heritage Community Charter School students. There is little tolerance for disrespect shown to oneself and others at HCCS.

Students must be polite to the teachers, administrators, staff, fellow students, and any visitors. The same is required of those employed by Heritage Community Charter School. Teachers, administrators, and staff will be respectful of students and each other, and be an example of correct and proper behavior. Because the number one goal at HCCS is to have a safe and orderly school that provides an atmosphere that is conducive to learning, there is a focus on positive behavior. Any student faced with a disciplinary action will be granted due process pursuant to Idaho Code. In the case of suspension or expulsion, a student and parent/guardian will be given written notice of the charges and an opportunity to present the student's version of the incident. Whenever a student is faced with disciplinary actions the parents will be notified in a timely manner.

Heritage Community Charter School will produce a student handbook that will follow state laws and due process that outlines a Code of Conduct, with expectations and consequences. This handbook will be submitted to the authorizing entity before the start of the school year. Steps to address inappropriate behavior will include, but are not limited to the following:

1. Written or verbal teacher notification to the parent/guardian of incidence or infraction.
2. Principal intervention
3. Three day suspension. A Parent/guardian conference with student and principal to be held before re-admittance.
4. Five day suspension. A parent/guardian conference with student and the Board of Directors to be held before re-admittance.

5. Expulsion in accordance with Idaho Code.

Major Discipline Problems

Major discipline problems will be referred to the principal or designee for the appropriate consequences that may include suspension or referral to the Board of Directors or designee for expulsion. Written notice to the parent or guardian of the student shall state the grounds for the denial of enrollment and will indicate a time and place where parents may appear to contest the action of the Board of Directors. Written notice will only be given in the event the student is expelled or denied enrollment.

A student may be automatically suspended (step three of the above procedure) under circumstances that: endanger student lives, involve drug/alcohol violations, involve weapons violations, and/or others as designated by the Board of Directors. Policies addressing drugs/alcohol and weapons can be found in the appendix. An informal hearing will be held prior to the suspension as required by Section 33-205, Idaho Code.

Temporary Suspension

Students who cannot abide by the school regulations and policies of Heritage Community Charter School and who disrupt the educational atmosphere or interfere with the educational process of the school may be temporarily suspended from classroom instruction and/or school for a time, not to exceed five (5) days by the principal or designee; and in the event the Board of Directors determines that it would be detrimental to the student and/or other students' health, welfare, or safety to return the student to school, the Board may extend the temporary suspension for an additional five (5) school days.

Expulsion

The Board of Directors may expel students who refuse or consistently fail to abide by school regulations and policies. Expulsion procedures will comply with Idaho Code. The student will be granted a full and fair hearing prior to the decision for expulsion to present information concerning the incident and/or actions of the student. The decision of the Board is final.

Reenrollment to School Following Expulsion

A student who has been expelled may appeal to the Board of Directors to hear a petition for reenrollment in school. Heritage Community Charter School's Board of Directors shall have the right to deny reenrollment for disciplinary or attendance reasons.

Disciplinary Procedures for Special Education Students

Heritage Community Charter School adopts and complies with the current Idaho Special Education Manual from the State Department of Education and will follow the procedures outlined in the student discipline section of the manual. Students with disabilities are entitled to all of the same due process rights in the area of discipline as

students without disabilities. In addition, there are additional safeguards that will be observed that insure their right to Free Appropriate Public Education (“FAPE”).

Alcohol and Controlled Substances

The Board recognizes that the misuse of drugs is a serious problem with legal, physical and social implications for the entire school community. As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive means.

For purposes of this policy, “Drugs” shall mean:

- A. all dangerous controlled substances as so designated and prohibited by Idaho law;
- B. all chemicals which release toxic vapors;
- C. all alcoholic beverages;
- D. any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
- E. “look-alikes”;
- F. anabolic steroids;
- G. any other illegal substances so designated and prohibited by law.

In accordance with Federal law, the Board hereby establishes a “Drug-Free School Zone” that extends 1000 feet from the boundary of any school property. The Board prohibits the use, possession, concealment, delivery, or distribution of any drug or any drug-related paraphernalia at any time on school property, within the Drug-Free School Zone, or at any school-related event.

Furthermore, the principal shall take the necessary steps to ensure that an individual eighteen (18) years of age or older who knowingly delivers or distributes controlled substances so designated and prohibited by Idaho law within the Drug-Free School Zone to another person is prosecuted to the fullest extent of the law.

The principal shall prepare guidelines for the identification and regulation of drug use in the schools. Such guidelines shall emphasize the prevention of drug use and include a statement to students that use of illicit drugs and the unlawful possession of alcohol is harmful. The student handbook shall provide standards of conduct that are applicable to all students which clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school premises or as a part of any school activity.

Sanctions for violation of school policies which address illegal drug and alcohol possession, use or distribution will include referral to the appropriate law enforcement agency and may include voluntary referral to appropriate persons or agencies for screening and assessment.

Public Charter School Attendance Alternatives

Because Heritage Community Charter School is a new entity and not a conversion of an existing school, the attendance alternative would be the same as for those presently residing within the area. Students located within the attendance area of the charter school would have the option to enroll in existing public schools presently serving the area. No student will be required to attend Heritage Community Charter School.

Process for Public Notification of Enrollment Opportunities

All advertising and promotion processes for HCCS will include the dissemination of enrollment information in English, Spanish and possibly other language(s) taking into consideration the demographics of the area, at least three (3) months in advance of the enrollment deadline established by the public charter school each year, to be posted in highly visible and prominent locations within the area of attendance of the public charter school. In addition, HCCS shall ensure that such process includes the dissemination of press release and/or public service announcements, to media outlets that broadcast within, and/or disseminate printed publications within, the area of attendance of the public charter school; HCCS will ensure that such announcements are broadcast and/or published by such media outlets on not less than three (3) occasions, beginning not later than fourteen (14) days prior to the enrollment deadline each year. Finally, such enrollment information shall advise that all prospective students will be given the opportunity to enroll in the public charter school, regardless of race, color, national or ethnic origin, religion, gender, social or economic status, or special needs.

Advertising for Heritage Community Charter School may actively recruit students for enrollment using, but not limited to, the following methods:

- Advertising with public schools located within the target area using flyers upon administrative approval.
- Heritage Community Charter School website (available within four weeks of charter approval) that will introduce information about the school.
- Brochures promoting the curriculum and methods used at Heritage Community Charter School.
- Public informational meetings about Heritage Community Charter School held in accordance with Section 67-2340 of the Idaho Code

Other methods that may include: news releases, radio, television, newspapers, news conferences, newsletters and signage.

Habitual Truancy, Incurrigibility, & Disruptive Students

Students of HCCS may be denied attendance for any of the following reasons:

- If the student is an habitual truant, defined by Idaho Code 33-206 as any public school pupil who, in the judgment of the board of trustees, repeatedly has violated the attendance regulations established by the board; or any child whose parents or guardians, or any of them, have failed or refused to cause such child to be instructed as provided in section Idaho Code.
- If the student is incorrigible,

- If the student is deemed by the board of trustees to be disruptive of school discipline or instruction effectiveness, or
- If the student is detrimental to the health and safety of the other students

In addition, students attempting to enroll at the school after being expelled from another district may be denied enrollment. Students who are expelled from HCCS or denied enrollment will be denied enrollment for not less than one calendar year. The school will comply with Idaho Code 33-205 which states that “No pupil shall be expelled nor denied enrollment without the board of trustees having first given written notice to the parent or guardian of the pupil, which notice shall state the grounds for the proposed expulsion or denial of enrollment and the time and place where such parent or guardian may appear to contest the action of the board to deny school attendance, and which notice shall also state the rights of the pupil to be represented by counsel, to produce witnesses and submit evidence on his own behalf, and to cross-examine any adult witnesses who may appear against him. Within a reasonable period of time following such notification, the board of trustees shall grant the pupil and his parents or guardian a full and fair hearing on the proposed expulsion or denial of enrollment. However, the board shall allow a reasonable period of time between such notification and the holding of such hearing to allow the pupil and his parents or guardian to prepare their response to the charge. Any pupil who is within the age of compulsory attendance, who is expelled or denied enrollment as herein provided, shall come under the purview of the juvenile corrections act, and an authorized representative of the board shall, within five (5) days, give written notice of the pupil’s expulsion to the prosecuting attorney of the county of the pupil’s residence. Discipline for students with disabilities, including expulsion and denial of attendance will comply with the requirements of the Individuals with Disabilities Education Act and the Idaho Special Education Manual as adopted by the Heritage Community Charter School Board of Directors and described in this Charter School Petition.

Plan for the Denial of School Attendance

Heritage Community Charter School is a public school, open to all children based on the provisions provided within this petition. Strict adherence to HCCS’s Code of Conduct for Students as described in the Student Handbook is required for optimum learning to be achieved. New/incoming students and parents will ‘sign off’ on accepting the conditions and consequences of HCCS’s Code of Conduct. Students who show signs of truancy, incorrigibility, disruptive to the learning process, health or safety risk will follow the provisions set forth under Disciplinary Procedures in this petition.

Except in extenuating circumstances as presented to the Board of Directors, a student expelled from another school or district in this state or any other state shall be denied the right to enroll in Heritage Community Charter School. Written notice to the parent or guardian of the student shall state the grounds for the denial of enrollment and will indicate a time and place where parents may appear to contest the action of the Board of Directors.

Student Handbook & Parental Access

Upon approval of the charter, the Board of Directors will appoint a committee to develop a student handbook that will reflect the vision and purpose of HCCS and that will be in compliance with the HCCS School Board Policies and the Law of the State of Idaho. The student handbook will be available in hard copy and on the HCCS web site. All new students will receive a copy of the Student Handbook upon enrollment.

TAB 8: Business Plan

Description

Heritage Community Charter School, Inc. was established to act and operate exclusively as a nonprofit corporation pursuant to the Idaho Nonprofit Corporation Act. The purpose for which it was created was to establish and operate an Idaho public charter school and to provide educational activities related to this purpose. HCCS was incorporated and organized by a group of founding members who volunteered their time and resources to create another choice in public education to parents and students in their community.

In accordance with the provisions of Idaho Code § 33-5205(3)(s) and IDAPA 08.02.04.203.2, HCCS will ensure that citizens in the area of attendance are made aware of the enrollment opportunities the school. This notification process will include the dissemination of enrollment information at least three months in advance of the enrollment deadline established by the public charter school each year, to be posted in highly visible and prominent locations within the area of attendance of the public charter school. The information disseminated in compliance with the provisions of this paragraph will take into consideration the language demographics of HCCS's attendance area. In addition, HCCS will ensure the dissemination of press releases or public service announcements to media outlets that broadcast within (or disseminate printed publications within) the area of attendance of the school. Further, HCCS ensures that these announcements will be broadcast or published by such media outlets no less than three times beginning no later than fourteen days prior to the enrollment deadline each year. Finally, this enrollment information will expressly provide notice that all prospective students will be given the opportunity to enroll at Heritage Community Charter School, regardless of race, color, national or ethnic origin, religion, gender, social or economic status, or special needs.

Marketing Plan

Purpose. At Heritage Community Charter School, our express purpose is to provide residents of our community with another choice in education. More specifically, our purpose is to offer an educational option that is otherwise unavailable yet highly desired.

Educational Environment. Residents of Canyon County have demonstrated an overwhelming demand for choice in education for their children. For example, all operating charter schools in the county are reporting significant waiting lists: **Victory Charter School** – waitlist of 1,791 students; **Vision Charter School** – waitlist of 396 students; **Idaho Arts** – waitlist of 507 students; and **Thomas Jefferson Charter School** – waitlist of

681 students. Furthermore, a recent decision by the IPCSC to revoke Nampa Classical Academy's charter will only increase the demand for additional charter school options inasmuch as over 550 students were enrolled to attend this school in the fall of 2010. Taken together, these schools report a combined total of 3,375 students waiting to enroll in the closest charter schools. For students that reside within Heritage Community Charter School's proposed Primary Area of Attendance, the likelihood of being accepted in any of these schools is very small due to the fact that they would not fall within these charter schools' primary area of attendance and would therefore not qualify for a permitted preference in enrollment – not to mention the additional time and cost of transporting their children to and from these schools.

Notwithstanding the apparent interest in charter schools, Caldwell School District does not have a charter school option within its boundaries. In the 2009-2010, the district reported a fall enrollment of 3,552 students in K-6, with a total K-12 enrollment of 6,212. Further, Caldwell School District is essentially surrounded by Vallivue School District (serving 4,220 in grades K-6 with a total K-12 enrollment of 7,040), and shares its northern boundary with Middleton School District (serving 1,596 students in K-6 with a total K-12 enrollment of 3,026). (See 2009-2010 Fall Enrollment Chart below.)

As seen above, over 24,500 K-8 students are attending Canyon County public schools, and approximately 11,815 of those students reside in Caldwell, Vallivue, and Middleton school districts – all of which will likely have students attending Heritage Charter School.

In addition to the public school offering in our community, over 1,600 students sought out alternative choices in education and were reported to have enrolled in private or non-public schools at the end of the 2007-08 school year. (See table below.)

Enrollment data obtained through the Idaho State Department of Education's *Non-Public Fall Enrollment 2007-2008*.

The purpose of providing this “educational landscape” is to demonstrate the viability of the market from which HCCS will likely draw its student base and provide realistic support for the enrollment projections reflected in this petition. With proper outreach and marketing, we are confident that we will be able to attract students to HCCS. However, demographics or a high population of school-aged children is only the foundation for our enrollment projections. The final piece is simple: a unique and desirable educational offering that will enhance and improve the educational offering found at other schools.

Competitive Advantage. It is our firm belief that the program of instruction outlined in this petition will be the driving force behind parents’ choice to enroll their students in HCCS. As noted above, HCCS will use the Idaho State Board of Education’s Standards as a foundation to be enhanced by the Core Knowledge Sequence and an advanced liberal arts high school curriculum. Many traditional public and charter schools have chosen to implement this highly effective curriculum that promotes academic excellence, greater equity and higher literacy, and a coherent, cumulative, and content specific core curriculum. The instructional program at HCCS will be further enhanced by a substantive second language acquisition program. The Core Knowledge Sequence provides the high level of planning and coordination across all grades that are almost always features of successful second language acquisition programs. With this curricular foundation, the addition of a second language will provide students with a host of benefits, including but not limited to: improved problem solving, increased test scores, increased proficiency with native language, increased creativity, improved literacy skills, and a broadened appreciation for other cultures. Given the demographics of Caldwell and surrounding districts, this program will provide meaningful benefits for all students who choose to attend the school.

Outreach. In addition to the procedures and requirements outlined in the *Description* section above, advertising for Heritage Community Charter School may also include, but not be limited to, the following methods:

- Advertising with public schools located within the target area using flyers upon administrative approval.
- Heritage Community Charter School website (available within four to eight weeks following charter approval) that will introduce information about the school.
- Brochures promoting the curriculum and methods used at Heritage Community Charter School.
- Public informational meetings about Heritage Community Charter School. Note: these meetings may be subject to the open meetings law contained in Idaho Code § 67-2345. If open meetings rules apply, HCCS board shall ensure compliance.

Operations

Following the outline detailed under Tab 2, organization of Heritage Community Charter School will generally follow the model of traditional single-grade classrooms starting with grades K-6, and beginning with a small grade 7-12 pilot secondary program. The Principal will determine the day-to-day operations of the school including but not limited

to the school calendar, schedule, and hours of operation in accordance to State required hours of attendance and Board of Director approval.

Administrative services will be provided by the Principal, augmented by other contracted services as needed.

Board Policy

Upon approval of the charter the Board of Directors will be charged with developing *A School Board Policy Manual*. This manual will include policies including but not limited to: Instruction, Students, Community Relations, Personnel, Administration, Financial Management, Non-instructional Operations, School Facilities, and Philosophy. Board Policy will be made available to the public either as a hard or electronic copy.

Budget

The budget for Heritage Community Charter School will be: (i) prepared in compliance with section 33-801, Idaho Code; (ii) will be presented at a public hearing in June of the year the school will open; and (iii) will be delivered to the State Department of Education as required on or before July 15 prior to the start of the school year. The budget will be prepared, approved and filed using the Idaho Financial Accounting Reporting Management System (IFARMS) format. Funding sources will include state allocation per pupil, federal start-up grants, private grants, business partnerships, and donations. Following is a projected three-year budget and first year cash flow.

For budget, please see Appendix I.

Transportation Services

In accordance with Idaho Code §§33-1501 and 33-1006, where practicable HCCS will provide transportation to students that reside more than 1.5 miles from the school facility and within the Primary Area of Attendance. HCCS will ensure its transportation policy complies with Idaho Code §§ 33-402(g), 33-1510, 33-1006, 33-1501 through 1514, 33-5208, and 67-2806 inasmuch as they are applicable to the school. Inasmuch as the process for advertising, receiving proposals, and selecting a student transportation provider is time consuming and involves various timelines and procedures, HCCS will take all reasonable steps to ensure transportation services are secured in a timely manner. In the process of advertising, HCCS will solicit proposals from all busing contractors listed on the SDE's contractor list.

School Lunch Program

Heritage Community Charter School hopes to begin offering hot food services during its first year of operation and will follow the guidelines listed by the National School Lunch Program. Free and reduced lunch forms will be provided to all students. Until a facility is available, alternate sources to offer lunch will be explored.

Determining Eligibility for Free and Reduced Price Meals

All schools participating in the NSLP must make free and reduced price meals available to eligible students. Each School Food Authority participating in the NSLP must have an approved free and reduced price policy statement on file at the State Agency. If a School Food Authority is just starting in participation in the NSLP it must file its policy statement for approval by the State Agency. This policy statement then becomes a permanent document, subject to any amendments whenever the School Food Agency makes a significant change in its free and reduced price policy.

(NOTE: For Directors' Resumes, please see Appendix N)

terms of the charter contract. The Board of Directors or designee may choose to have a State representative(s) or an independent evaluator(s):

1. visit the Charter School;
2. review the Charter School's records and data;
3. directly survey the Charter School's parents/guardians, students, or employees;
4. audit the books of the Charter School;
5. pursue other reasonable means of determining accountability for the Charter School contract.

Amending the Contract

A material revision of the terms of the charter school contract requires the approval of the school's authorizer and the Board of Directors.

Plan for Termination

CLOSURE PROTOCOL

August 2013

Background

This Closure Protocol is aligned to Idaho statute and rule and is designed to reflect best practices for managing the school closure process in an organized manner that protects the state, students and the community.

The Idaho Public Charter School Commission Closure Protocol is based on the Colorado Charter School Sample Closure Framework released in 2011 and publicly available at www.charterschoolquality.org. The Colorado Sample Closure Framework was created through the collaborative work of the Colorado Department of Education, the Colorado League of Charter Schools, and the Colorado Charter School Institute.

The Colorado Charter School Sample Closure Framework incorporated information from the following sources:

1. *Accountability in Action: A Comprehensive Guide to Charter School Closure*. Edited by Kim Wechtenhiser, Andrew Wade, and Margaret Lin. National Association of Charter School Authorizers (2010).
2. Colorado Charter School Institute Closure Project Plan (2010).

4. *Pre-Opening Checklist and Closing Checklist*. Office of Education Innovation, Office of the Mayor, City of Indianapolis.
5. *2010-2011 Charter Renewal Guidelines*. District of Columbia Public Charter School Board.

During the revision process, the following additional sources were integrated into the Idaho Public Charter School Commission Closure Protocol:

Introduction

Charter school closures happen when a school’s charter is revoked, non-renewed, or relinquished. A number of factors can lead to closure of the school, including poor academic performance, finances, governance, or safety issues. Regardless of the reasons for closure, the board of directors of the public charter school is responsible for managing the closure and dissolution process.² Cooperation between the public charter school board and administrator, authorizer, and other state entities can allow for the facilitation of a smooth process that “minimize[s] disruption for students while ensuring that public funds are used appropriately.”³

The closure process should begin as soon as the authorizer or the charter school board takes initial action to close the school, regardless of whether an appeals process has been completed or the decision has been finalized. This allows the school and authorizer to discuss the potential closure, identify a tentative timeline for the final decision, and work together to establish a closure team and clear paths of communication with each other, stakeholders, and the community.

Whenever possible, the authorizer and public charter school should work together to ensure that the school is able to operate through the completion of the regularly-scheduled school year. Under most circumstances, this should allow adequate time to complete all closure tasks. More importantly, it minimizes instructional gaps for students. However, there are occasions when it is necessary for a school to close mid-year. In these cases, students’ educational transitions should be the highest priority. The school, authorizer, and other state entities must also identify the appropriate closure team and work closely together to prioritize closure tasks and manage their completion in as organized and efficient manner as possible.

Though individual schools should develop closure plans that are tailored to their situation, resources, and needs, all schools should keep the following primary goals in mind:

1. Providing educational services in accordance with the charter and performance certificate until the end of the school year, or the agreed upon date when instruction will stop.
2. Reassigning students to schools that meet their educational needs.
3. Addressing the school’s financial, legal and reporting obligations.

The closure process has many tasks, which are illustrated in the chart below. Based on the circumstances surrounding the closure, not all tasks in this protocol may apply. When the charter school, authorizer, and other state entities meet at the outset of the closure process, they should refer to the Closure Protocol and identify which tasks will be required or necessary. During this meeting, responsible parties and completion dates should be agreed upon to ensure a transparent and smooth closure. The template that follows includes the basic tasks that will usually need to be addressed to close a school; the format allows for the insertion of responsible parties and task deadlines.

“If charter schools are to have any hope of transforming public education, they cannot settle for simply being pretty good or just above average – especially when that average is well below what students need to succeed in the world. From this perspective, charter schools need to be about excellence. Specifically, they need to prove that excellence is possible and achievable at scale and under difficult circumstances, even with students whom others may have given up on.”

“All of those who embark on this perilous journey of hope deserve our deepest gratitude and respect for embracing this challenge with courage, persistence and good faith. But these virtues alone are not enough. Charter schools are not supposed to rest on good intentions and earnest effort; they are supposed to achieve meaningful results demonstrated by a sound body of evidence over the charter term. Charter schools that cannot deliver on that promise, either to their students or the broader public, need to be closed. This is the unpleasant, but imperative responsibility of authorizers.”
