# Introduction

Charter schools in Idaho operate on 5-year terms as defined in a Performance Certificate executed between the school's board and its authorizer. In addition, Idaho law requires that every certificate includes a framework describing the expectations the school must meet in order to earn a next operational term. It also requires that charter school authorizer's complete performance reports for the schools they oversee each year. The annual performance report serves the following purposes:

1. To provide transparent information about charter school quality to the public;
2. To ensure charter school boards have access to clear expectations and;
3. To inform mid-term authorizing decisions.

This report reflects how the school's outcomes during the most recently completed school year measure up against the expectations established in the framework. At the end of each 5-year term, the authorizer reviews the school's annual reports and financial data to inform its decision to renew, conditionally renew, or non-renew, the school for a subsequent term.

Each measure included in the IPCSC's framework has a meets standard benchmark. A school that meets standard on all measures at the end of its current operational term is guaranteed an unconditional renewal. A school that does not meet standard on at least one measure at the end of its current operational term may be conditionally renewed or non-renewed. Because the outcomes on this report inform high-stakes decisions, schools are encouraged to use this information to support their strategic planning efforts each year.

**COVID-19 NOTE:** Please note that due to the COVID-19 pandemic, the IPCSC has suspended ratings (exceeds, meets, etc.) on academic and financial measures for the FY21 report. All outcomes are included in this report; however, outcomes are not rated.

# School Overview

Model:	Arts-Integration Instruction
Enrollment Capacity:	193
Grades Served:	K-8
Enrollment Projected FY22:	264

### Key Design Elements:

- **Arts Integration:** Arts Integration instructional strategies and methods are best practices utilized to teach the curriculum fusing art form (drama, music, art, etc.) within the learning process;
- **Data Driven Instruction Model:** Doral Inc. has the philosophy that their schools should meet the needs of the community in which they are located and the students they serve, thus, DAI will use results on student interim and summative assessments to make data-driven decisions for the benefit of the student.

## Academic Outcomes

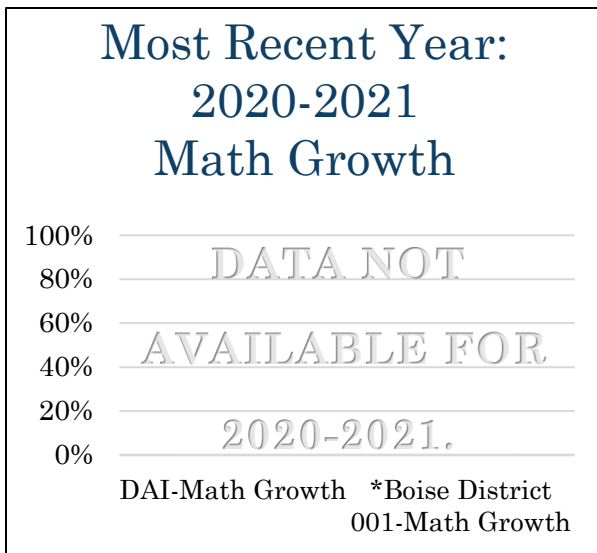

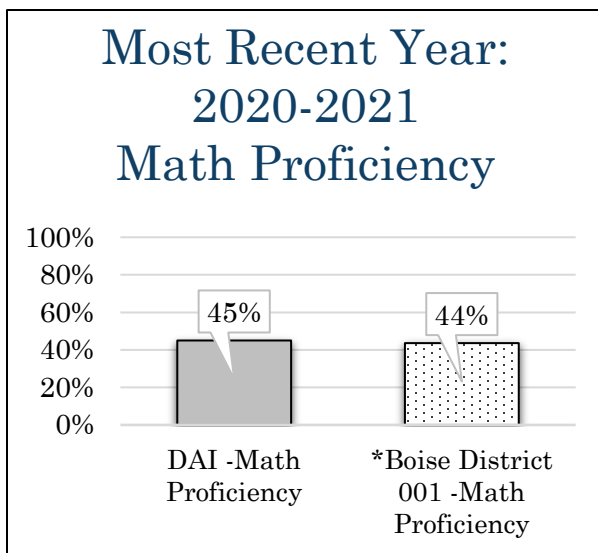

### MATH PROFICIENCY & MATH GROWTH

**Why This Matters:**

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the statewide mathematics assessment (ISAT) meets the IPCSC standard on both the math proficiency and math growth measures.

If this standard is not yet met, the school should focus its strategic planning on improving mathematics achievement outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

## ELA PROFICIENCY & ELA GROWTH

### Why This Matters:

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the statewide ELA assessment (ISAT) meets the IPCSC standard on both the ELA proficiency and ELA growth measures.

If this standard is not yet met, the school should focus its strategic planning on improving these outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

## Academic Outcomes

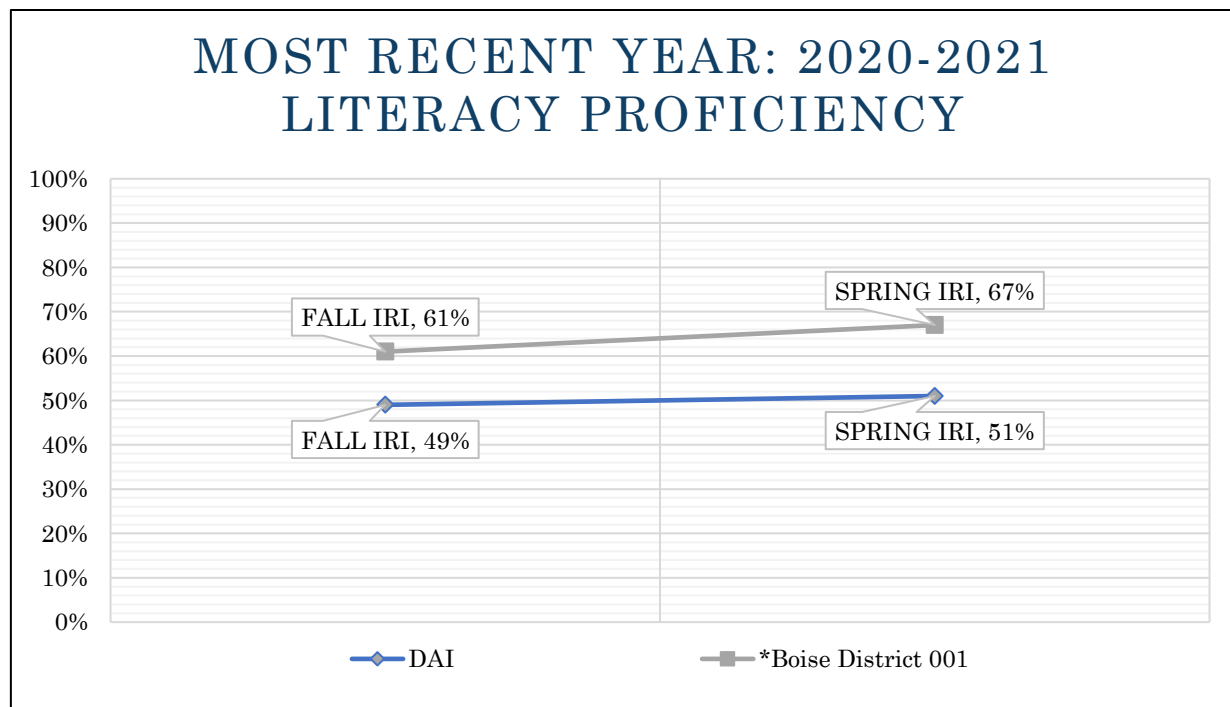

### LITERACY PROFICIENCY

#### Why This Matters:

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the spring statewide literacy assessment (IRI) meets the IPCSC standard. Alternatively, a school that did not perform as well or better than its comparison group on the spring assessment, but that did improve its outcome by at least 10% from fall to spring, also meets standard.

If this standard is not yet met, the school should focus its strategic planning on improving these outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

## Longitudinal Academic Ratings | 2020-2025

Longitudinal data provides a snapshot of a school’s ratings over the school’s current performance certificate (5 years). This data helps to identify performance trends and changes over time. Schools are encouraged to consider how this data might be used to drive strategic planning as the school approach its next renewal decision.

*\*Doral Academy of Idaho is in the first operational year of their performance certificate.*

## Academic Ratings | Revised Framework

*Due to COVID-19 pandemic, no academic data was available for the 2019-2020 school year. Additionally, as ratings are used to inform charter renewal decisions, the IPCSC chose to suspend ratings for the 2020-21 school year due to the anticipated impact of the pandemic.*

### BOARD STEWARDSHIP

#### Why This Matters:

At the highest level, the success of a charter school is driven by the ability of its governing board to govern effectively. The measures in this section help identify the strengths and challenges faced by the school's board. As success on these measures was not unduly influenced by the pandemic, ratings are applied for the 2020-2021 school year. \*Please see the [Performance Framework Rubrics](#) for details regarding how each measure is rated.

Governance Structure Measure	Data/Evidence Source
The board bylaws are compliant with ID law.	Bylaws 5/28/2021. If the school has amended its bylaws since this date, please provide an updated copy to the IPCSC.
The school's articles of incorporation are current.	Articles of Incorporation initially filed on 06/19/2019. Most recently updated on 06/24/2021.
The board does operate in compliance with its bylaws.	*No instances of non-compliance documented.
Investigations were not conducted into ethical behavior or conflict of interest regarding any board director this year.	*No instances of non-compliance documented.
The board did not experience Open Meeting Law violations that needed to be cured this year.	*No instances of non-compliance documented.
<b>Comments/ Context:</b> This school will be eligible for an Exceeds Standards rating after being in operation for three years.

Governance Oversight Measure	Data/Evidence Source
The IPCSC did not evaluate the boards review of academic data in a timely and thorough manner due to pandemic for 2020-2021.	*No instances of non-compliance documented
The board did not review financial reports in a timely and thorough manner.	*See comments.
The board did maintain compliant policies.	*No instances of non-compliance documented.
The board did not engage in strategic planning.	*See comments.
The board did conduct a compliant evaluation of their school leader or management organization.	*No instances of non-compliance documented
<b>Comments/ Context:</b> A DAI meeting minute desk audit provided unclear evidence regarding what financial reports or financial audits were discussed by the board for the first quarter of the year. Financial performance discussions are clearer beginning in January 2021. The meeting minutes desk audit also provided no evidence of strategic planning or continuous improvement planning discussion; however, CIP is on file with IPCSC (2/17/2021) via school's website.

Governance Compliance Measure	Data/Evidence Source
The IPCSC did not issue courtesy letters to the school noting compliance concerns this year.	*No instances of non-compliance documented.
Another investigative body was not notified of concerns at this school this year.	*No instances of non-compliance documented.
<b>Comments/ Context:</b> This school will be eligible for an Exceeds Standards rating after being in operation for three years.	

## Operational Outcomes

### MANAGEMENT

#### Why This Matters:

The systems and structures that support school operations are an important part of the school's overall success. The measures in this section help identify the strengths and challenges that impact the school's day-to-day operations. As success on these measures was not unduly influenced by the pandemic, ratings are applied for the 2020-2021 school year.

# Longitudinal Operational Ratings | 2020-2025

## Board Stewardship

Longitudinal data provides a snapshot of a school's ratings over the school's current performance certificate (5 years). This data helps to identify performance trends and changes over time. Schools are encouraged to consider how this data might be used to drive your strategic planning as your school approach its next renewal decision.

Note: In 2020, the IPCSC reorganized these measures for clarity. Operational outcomes are now divided into two sections (board stewardship and management) based on the primary party responsible for the school's success on each measure.

## Financial Outcomes

### NEAR TERM MEASURES

These measures evaluate whether a school is likely to meet its financial obligations in the next year. \*Please see the [Performance Framework Rubrics](#) for details regarding how each measure is rated.

### Current Ratio

The school has a current ratio of more than 1.5.	Current 1.57	Ratings Not Applicable for 2020-2021
--	--------------	--------------------------------------

#### **Why This Matters:**

Current Ratio is a comparison of a school's financial obligations due within one year (current liabilities) to the cash and investments held by the school (current assets).

A school with more assets than liabilities (a Current Ratio greater than 1.0) would be able to meet its financial obligations for the

next year without relying on future revenue.

A school with more liabilities than assets (a Current Ratio of less than 1.0) is dependent on revenue it has not yet received to meet existing financial obligations.

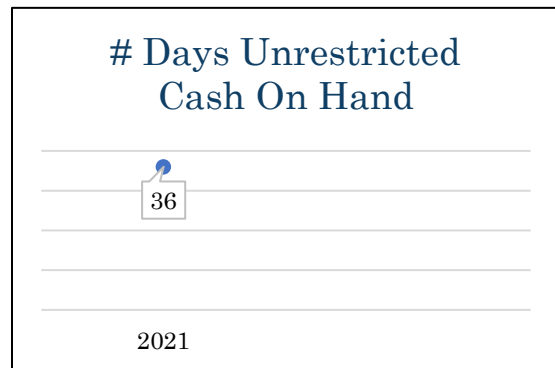

### Unrestricted Days Cash

The school is in its first or second year of operation and has at least 30 days cash on hand	36 Days	Ratings Not Applicable for 2020-2021
--	---------	--------------------------------------

#### **Why this Matters:**

This measure estimates a school's average daily cost of operations and considers the number of days a school could operate using only its available cash and investments.

A school with at least 60 days cash on hand would be able to meet its immediate financial obligations with available cash, buying the time it might take to access other current assets. Occasionally, a planned purchase may decrease this number temporarily. In those cases, 30-60 days cash on hand with an upward trend is acceptable. A school with less than 15 days cash on hand is in financial distress and is at risk of automatic closure.

## Default

The school is not in default of any financial obligations and did not experience any instances of default during the fiscal year.	Ratings Not Applicable for 2020-2021
---	--------------------------------------

### Why this Matters:

This measure identifies whether a school has defaulted on any of its financial obligations. Default can mean many things. Examples of default include: paying bills late, failing to make payroll, or inaccurately filing reports required for funding. Default can also include a failure to meet any additional requirements of long-term debt as established by the lender (such as meeting a specific enrollment target or maintaining a greater amount of cash on hand than the PCSC requires).

Any act of default can result in disruption of services, loans being called due, or funding that is inaccurate or withheld.

## Enrollment Variance

The school achieved and sustained less than 90% of its projected enrollment and did not provide a mid-year amended budget evidencing a break-even financial plan.	Enrollment Variance 87.90%	Ratings Not Applicable for 2020-2021
---	-------------------------------	--------------------------------------

### Why this Matters:

The Enrollment Variance measure considers what percentage of a school's projected enrollment was achieved. As the majority of a public school's funding is generated by student enrollment, this measure reflects a school's ability to execute its budget to plan.

A school that achieves at least 95% of its projected enrollment will likely experience few bumps and may make minor adjustments. A school that achieves less than 95% of projected enrollment is likely to face budget challenges requiring more significant budget amendments and may be in financial distress.

## Financial Outcomes

### SUSTAINABILITY MEASURES

These measures help determine whether a school is likely to remain financially stable into the future.

### Total Margin

The school is in its first or second year of operations. As such, an aggregate 3-year total margin cannot be calculated, but the school's most recent year total margin is positive.	<p style="text-align: center;">CY Total Margin .38%</p> <p style="text-align: center;">3-Year Aggregated .72%</p>	Ratings Not Applicable for 2020-2021
--	---	--------------------------------------

#### Why this Matters:

The Total Margin compares a school's total revenue to its net income. Specifically, this measure identifies what percentage of a school's total revenue in a given year was not expended during that year. A school with a positive total margin spent less than it brought in. That is, the school is living within its means and can plan for future purchases and investments.

An occasional negative total margin may indicate that a planned or necessary purchase has taken place. This is not necessarily a negative indicator.

However, if the Total Margin is chronically negative or severe decreases appear, the school may be in financial distress. Aggregating this margin over three years helps to identify these long-term trends.

Note: for the purposes of this calculation, pension liability is excluded from the school's net income.

## Cash Flow

<p>The school is in its first or second year of operations. As such the multi-year cash flow cannot be calculated; however, the school's most recent year cash flow is positive.</p>	<p>Most Recent Year \$138,761 Previous Year \$4,663 Multi-Year \$143,424</p>	<p>Ratings Not Applicable for 2020-2021</p>
--	--	---

### Why this Matters:

The Cash Flow measure considers the change in a school's cash balance over time. A school with a positive cash flow is increasing its reserves and is likely able to fund future projects and purchases.

A school with a negative cash flow is using its existing reserves to fund general operations and is not likely to have the financial flexibility to fund future plans.

A multi-year cumulative cash flow helps to identify long-term trends.

## Debt Service Coverage Ratio

<p>The school's debt service coverage ratio is between .9 and 1.09.</p>	<p>Debt Service Coverage Ratio 1.05</p>	<p>Ratings Not Applicable for 2020-2021</p>
---	---	---

### Why this Matters:

This measure evaluates a school's ability to make payments on debt due in a given year using only that year's income. This helps determine whether a school has more debt than it can manage.

A school with more Operating Income than Debt Service (a Debt Service Coverage Ratio greater than 1) can meet the financial obligations of their debt. A

school with more Debt Service than Operating Income (a ratio of less than 1) is reliant on either reserves or revenues anticipated in future years to meet its debt obligations.

## Debt to Asset Ratio

The school's Debt to Asset Ratio is less than 0.9.	Debt/Asset Ratio .83	Ratings Not Applicable for 2020-2021
--	----------------------	--------------------------------------

### Why This Matters:

The Debt to Asset Ratio compares a school's total liabilities to its total assets. This helps determine whether a school would be able to meet both its short and long-term financial obligations.

A school whose total liabilities are 90% or less of its Total Assets is

likely to be able to repay all short-term debts and still manage to set its long-term affairs in order in a worst-case scenario. A school with more liabilities than assets would not be able to meet all its financial obligations in a worst-case scenario.

Note: for the purposes of this measure, pension liability is excluded from the school's total liabilities.

## Longitudinal Financial Ratings | 2020-2025

Longitudinal data provides a snapshot of a school's ratings over the school's current performance certificate (5 years). This data helps to identify performance trends and changes over time. Schools are encouraged to consider how this data might be used to drive your strategic planning as your school approach its next renewal decision.

Notes: The 2020 framework revision removed the "cash ratio" measure and moved the existing enrollment variance measure to the financial section.

Due to the impact of the pandemic, financial outcomes are not rated for 2020-21. Additionally, the enrollment variance measure was calculated based on projected enrollment and actual enrollment (not ADA).
