

IPCSC

IDAHO PUBLIC CHARTER SCHOOL COMMISSION

Charter News & Informational Updates

Did you know that the IPCSC is Idaho's largest authorizer, with a portfolio of approximately 75% of Idaho's charter schools?

The IPCSC portfolio includes charter schools and virtual schools throughout the state.

The IPCSC offers a school choice publication [Charter School Choice – 2022-2023 \(idaho.gov\)](https://www.idaho.gov/charter-school-choice-2022-2023) that provides brief description and contact information for each of the schools within its portfolio. This publication is updated annually to ensure the public is provided with the most update information on school choice in their area.

Although each of these schools has completed their 2022-2023 school lottery to identify open and filled seats many still are offering opportunities to enroll. Please use the publication resource linked to reach out to your school of choice for enrollment opportunity.
