8TH ANNUAL
FAMILY & COMMUNITY
ENGAGEMENT CONFERENCE

“The Idaho Family & Community Engagement Conference has become one of the most anticipated annual educator training events. It continues to increase active participation and communication between families, schools, and communities with the objective of educating the whole child to ensure academic achievement and success.

This unique statewide conference brings together 450 school administrators, teachers, school counselors, school community resource workers, and community organizations. It is through this collaborative network of school, family, and community partnerships that support students to be successful today and in the future.”-SDE

“The ISBA Annual Convention is a valuable learning opportunity for boards, superintendents, clerks, and business managers. Additionally, the ISBA Business Session provides school boards with the opportunity to vote on policy issues that will comprise ISBA’s legislative platform for the upcoming year.”-Idaho School Boards Association 2023

This event will be held by the Idaho School Boards Association on November 15th-17th, 2023 in Boise, ID. Join the ISBA to learn, network, and receive resources to support students and education in Idaho.
