Introduction

COMPLIANCE/AUTHORITY:

Charter schools in Idaho operate on 5-year terms as defined in a Performance Certificate executed between the school's board and its authorizer. In addition, [I.C. §33-5209A](#) and [I.C. §33-5209C](#) require that every certificate include a framework describing the expectations the school must meet in order to earn a next operational term. It also requires that charter school authorizer's complete performance reports for the schools they oversee each year. The annual performance report serves the following purposes:

1. To provide transparent information about charter school quality to the public;
2. To ensure charter school boards have access to clear expectations and;
3. To inform mid-term authorizing decisions.

RENEWAL (I.C. §33-5209B)

At the end of each 5-year operating term, each school's performance certificate is considered for renewal. As this school's operating contract expires on June 30th, 2027, this report directly impacts the school's renewal recommendation. The authorizer is required to consider the following when making renewal decisions: all annual performance reports issued during the current performance certificate term, the school's current financial status, and any application materials submitted by the school. Renewal decisions must be made prior to March 15th, 2027. Please see the [Renewal Guidance](#) document for more information on the renewal process.

- **PERFORMANCE REPORT APPLICATION:**
 - Each measure included in the IPCSC's framework has a meets standard benchmark. If this school meets standard on all measures of the framework as reflected in the most recent years Annual Performance Report the school is guaranteed renewal. If the school does not meet standard on one or more measures of the school's operating contract, it may be conditionally renewed or non-renewed.

*****Outcomes on this report inform high-stakes decisions, schools are encouraged to use this information to support their strategic planning efforts each year. *****

School Overview

Model:	Schoolwide Enrichment
Enrollment Capacity:	210
Grades Served:	K-8

Key Design Elements:

- Use the School Enrichment Model (SEM) to provide expanded educational opportunities for all students based on their strengths and interests in order to engage them in their learning, thereby raising expectations and achievement for all. The fundamental aspect of the SEM is Enrichment Clusters
 - Each student participates in at least one enrichment cluster per school year. Clusters last 6-12 weeks, and typically meet once per week.
 - Students work in small groups to produce products or services that solve real-world problems and benefit the students, their school, or the larger community.
 - Strong Social Emotional Learning (SEL) program
 - Implementation of 7 Mindsets Program
 - Safe environment
 - Students are provided with a safe school facility.
 - Students have access to adults willing to listen and protect students' safety.
 - Students are provided with education and tools to encourage safe behavior among themselves.
 - A strong, anti-bullying policy will be enforced.
 - Community School Approach to Meeting the Needs of Students and Families
 - Community partnerships developed to support students and families
- Social, emotional and academic needs of students and families are addressed as part of a comprehensive approach to helping students succeed in school and in life.

Academic Outcomes

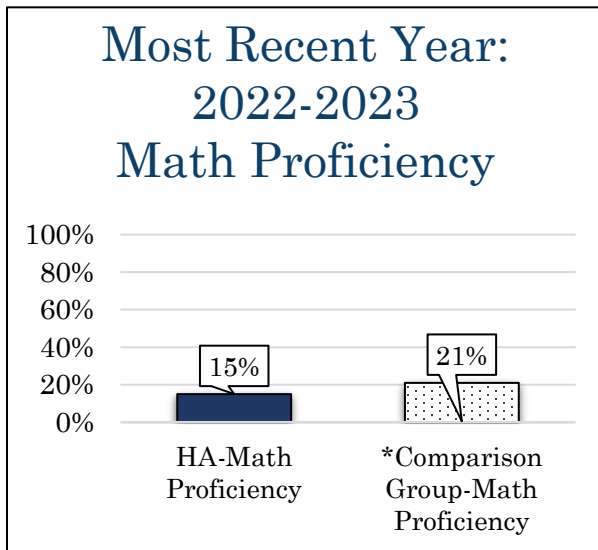

MATH PROFICIENCY & MATH GROWTH

Why This Matters:

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the statewide mathematics assessment (ISAT) meets the IPCSC standard on both the math proficiency and math growth measures.

If this standard is not yet met, the school should focus its strategic planning on improving mathematics achievement outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

Comparison Group: Heritage Community Charter School (1343); Chief Tahgee Elementary (1347); Bickel Elementary School (0820); Central Elementary (0447); Lakeside Elementary (0752); Garfield Elementary (0303)

MEASURE	PROFICIENCY RATING	APPLICABLE RUBRIC DESCRIPTION
MATH PROFICIENCY	Approaches Standard	The school's proficiency rate falls between the mean and one standard deviation below the mean of the identified comparison group.
MEASURE	GROWTH RATING	APPLICABLE RUBRIC DESCRIPTION
MATH GROWTH	Meets Standard	The percentage of students in grades 3-8 who did not achieve proficiency on the current year's assessment but who did make adequate growth toward proficiency is equal to the mean of the identified comparison group.

Academic Outcomes

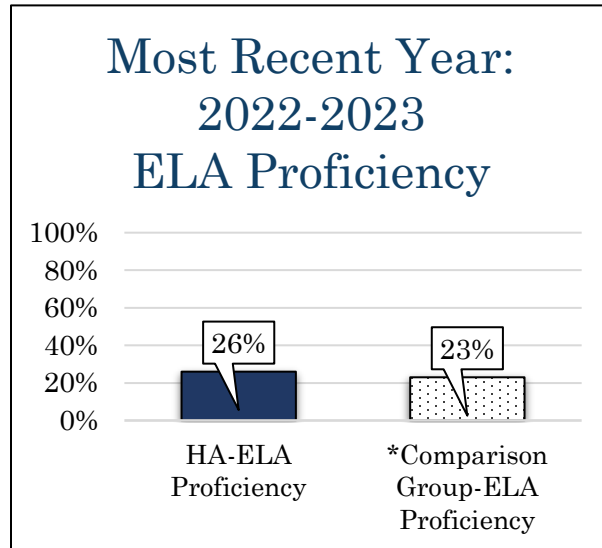

ELA PROFICIENCY & ELA GROWTH

Why This Matters:

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the statewide ELA assessment (ISAT) meets the IPCSC standard on both the ELA proficiency and ELA growth measures.

If this standard is not yet met, the school should focus its strategic planning on improving these outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

ELA GROWTH	Meets Standard	The % of students in grades 3-8 who did not achieve proficiency on the current year's assessment but who did make adequate growth toward proficiency falls between the mean and one standard deviation above the mean of the identified comparison group.

Academic Outcomes

LITERACY PROFICIENCY

Why This Matters:

The IPCSC must determine whether the academic performance at the school represents a favorable return on the investment of public dollars. For context, the IPCSC considers the school’s performance in relation to other educational choices available to families. A school that performs as well or better than the average of its comparison group on the spring statewide literacy assessment (IRI) meets the IPCSC standard. Alternatively, a school that did not perform as well or better than its comparison group on the spring assessment, but that did improve its outcome by at least 10% from fall to spring, also meets standard.

If this standard is not yet met, the school should focus its strategic planning on improving these outcomes to ensure the school will earn a next operational term. If the standard is met, strategic planning may focus on whatever data points will best establish and sustain an exemplary school of the specific model for which the school is chartered.

Operational Outcomes

BOARD STEWARDSHIP

Why This Matters:

At the highest level, the success of a charter school is driven by the ability of its governing board to govern effectively. The measures in this section help identify the strengths and challenges faced by the school's board. *Please see the [Performance Framework Rubrics](#) for details regarding how each measure is rated.

Financial Outcomes

NEAR TERM MEASURES

These measures evaluate whether a school is likely to meet its financial obligations in the next year. Data sources include but are not limited to the school’s fiscal audit, state agency reporting, and school reporting requirements.

*Please see the [Performance Framework Rubrics](#) for details regarding how each measure is rated.

RATING LEGEND	DOES NOT MEET STANDARD	APPROACHES STANDARD	MEETS STANDARD	EXCEEDS STANDARD	NOT RATED DUE TO PANDEMIC
---------------	------------------------	---------------------	----------------	------------------	---------------------------

Current Ratio

The school has a current ratio of more than 1.5.	Current Ratio: 8.2	Exceeds Standard
--	--------------------	-------------------------

Why This Matters:

Current Ratio is a comparison of a school’s financial obligations due within one year (current liabilities) to the cash and investments held by the school (current assets).

A school with more assets than liabilities (a Current Ratio greater than 1.0) would be able to meet its financial obligations for the next year without relying on future revenue.

A school with more liabilities than assets

(a Current Ratio of less than 1.0) is dependent on revenue it has not yet received to meet existing financial obligations.

Unrestricted Days Cash

The school has more than 60 days cash on hand.	88 Days	Exceeds Standard
--	---------	-------------------------

Why this Matters:

This measure estimates a school's average daily cost of operations and considers the number of days a school could operate using only its available cash and investments.

A school with at least 60 days cash on hand would be able to meet its immediate financial obligations with available cash, buying the time it might

take to access other current assets. Occasionally, a planned purchase may decrease this number temporarily. In those cases, 30-60 days cash on hand with an upward trend is acceptable. A school with less than 15 days cash on hand is in financial distress and is at risk of automatic closure.

Default

The school has met all financial obligations for at least 3 consecutive years.	Exceeds Standard
--	-------------------------

Why this Matters:

This measure identifies whether a school has defaulted on any of its financial obligations. Default can mean many things. Examples of default include: paying bills late, failing to make payroll, or inaccurately filing reports required for funding. Default can also include a failure to meet any additional requirements of long-term debt as established by the lender (such as meeting a specific enrollment target or maintaining a greater amount of cash on hand than the IPCSC requires).

Any act of default can result in disruption of services, loans being called due, or funding that is inaccurate or withheld.

Comments/Context: No instances of non-compliance documented.
--

Enrollment Variance

<p>The school achieved and sustained less than 90% of its projected enrollment during the most recently completed school year, but provided a mid-year amended budget evidencing a break-even financial plan.</p>	<p>Enrollment Variance: 84%</p>	<p>Meets Standard</p>
---	-------------------------------------	------------------------------

Why this Matters:

The Enrollment Variance measure considers what percentage of a school’s projected enrollment was achieved. As the majority of a public school’s funding is generated by student enrollment, this measure reflects a school’s ability to execute its budget to plan.

A school that achieves at least 95% of its projected enrollment will likely experience few bumps

and may make minor adjustments. A school that achieves less than 95% of projected enrollment is likely to face budget challenges requiring more significant budget amendments and may be in financial distress.

Financial Outcomes

SUSTAINABILITY MEASURES

These measures help determine whether a school is likely to remain financially stable into the future. Data sources include but are not limited to the school’s fiscal audit, state agency reporting, and school reporting requirements. *Please see the [Performance Framework Rubrics](#) for details regarding how each measure is rated.

RATING LEGEND	DOES NOT MEET STANDARD	APPROACHES STANDARD	MEETS STANDARD	EXCEEDS STANDARD	NOT RATED DUE TO PANDEMIC
------------------	---------------------------	------------------------	-------------------	---------------------	------------------------------

Total Margin

The school's aggregated 3-year total margin is greater than -1.5%, but the most recent year total margin is negative.	CY Total Margin: -2.05% 3-Year Aggregated: 6.46%	Approaches Standard
---	--	--------------------------------

Why this Matters:

The Total Margin compares a school’s total revenue to its net income. Specifically, this measure identifies what percentage of a school’s total revenue in a given year was not expended during that year. A school with a positive total margin spent less than it brought in. That is, the school is living within its means and can plan for future purchases and investments.

An occasional negative total margin may indicate that a planned or necessary purchase has taken place. This is not necessarily a negative indicator. However, if the Total Margin is chronically negative or severe decreases appear, the school may be in financial distress. Aggregating this margin over three years helps to identify these long-term trends.

Comments/Context:
 *For the purposes of this calculation, pension liability is excluded from the school’s net income.

Cash Flow

<p>The school's multi-year cumulative cash flow is negative, but documentation identifies this as a result of a one-time, planned purchase (such as a facility remodel).</p>	<p>Most Recent Year: -\$114,169 Previous Year: \$260,290 Multi-Year: \$146,121</p>	<p>Meets Standard</p>
--	---	------------------------------

Why this Matters:

The Cash Flow measure considers the change in a school's cash balance over time. A school with a positive cash flow is increasing its reserves and is likely able to fund future projects and purchases.

A school with a negative cash flow is using its existing reserves to fund general operations and is not likely to have the financial flexibility to fund future plans.

A multi-year cumulative cash flow helps to identify long-term trends.

Debt Service Coverage Ratio

The school's debt service coverage ratio is less than .9.	Debt Service Coverage Ratio: 0.8	Approaches Standard
---	----------------------------------	----------------------------

Why this Matters:

This measure evaluates a school's ability to make payments on debt due in a given year using only that year's income. This helps determine whether a school has more debt than it can manage.

A school with more Operating Income than Debt Service (a Debt Service

Coverage Ratio greater than 1) can meet the financial obligations of their debt. A school with more Debt Service than Operating Income (a ratio of less than 1) is reliant on either reserves or revenues anticipated in future years to meet its debt obligations.

Debt to Asset Ratio

The school has maintained a debt to asset ratio less than .9 for at least 3 consecutive years.	Debt/Asset Ratio: 0.59	Exceeds Standard
--	------------------------	-------------------------

Why This Matters:

The Debt to Asset Ratio compares a school's total liabilities to its total assets. This helps determine whether a school would be able to meet both its short and long-term financial obligations.

A school whose total liabilities are 90% or less of its Total Assets is

likely to be able to repay all short-term debts and still manage to set its long-term affairs in order in a worst-case scenario. A school with more liabilities than assets would not be able to meet all its financial obligations in a worst-case scenario.

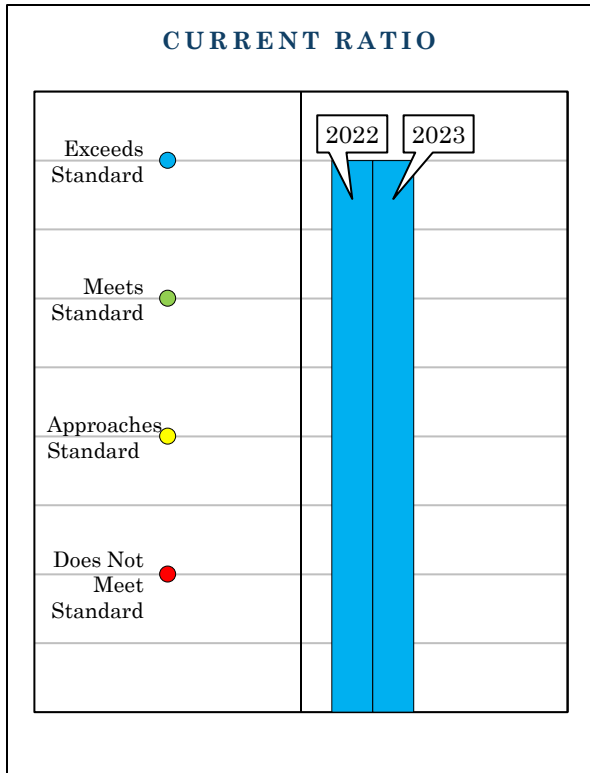

Note: for the purposes of this measure, pension liability is excluded from the school’s total liabilities.

Financial Compliance

Standard Rating: Exceeds Standard	
Financial Operations	Data and/or Evidence Source
The school’s finances are managed in compliance with GAAP.	Financial Audit: 10/2/23
Expenditures and contracts are posted online appropriately.	School’s Expenditure Pages
The school maintains compliant internal controls.	Financial Audit: 10/2/23
The school is not operating under a Notification of Fiscal Concern.	*No instances of non-compliance documented.
The school is not operating under a Notification of Possible or Imminent Closure.	*No instances of non-compliance documented.
