Introduction

In Idaho, charter schools operate under contract terms specified in a Performance Certificate, which is agreed upon by the school's board and its authorizer, as outlined in I.C. §33-5205B. Each Performance Certificate includes a performance framework that outlines the expectations the school must meet to be granted a subsequent operational term. The annual performance report, based on this framework, serves the following purposes:

- To provide transparent information about charter school quality to the public;
- To ensure that charter school boards have clear expectations;
- To inform mid-term authorizing decisions.

The Idaho Public Charter School Commission (IPCSC) must assess whether the school's performance represents a favorable return on public funds. The IPCSC also considers the school's performance in comparison to other educational options available to families. The data in this report are derived from the previous fiscal year and summarize the outcomes of the school's last year of the contract term for those schools that are up for renewal.

If the performance standards are met, strategic planning may focus on the data points that will establish and sustain a high-performing school. If a standard is not met, the school should focus its strategic planning on improving outcomes to secure a subsequent operational term.

Please see the [Performance Framework](#) rubrics for details regarding how each measure is rated.

RENEWAL (I.C. §33-5209A)

At the conclusion of the operating term, the performance certificate of each school is reviewed for renewal. Charters may be renewed for successive terms. An authorizer can grant renewal with specific written conditions aimed at improving the public charter school, along with a deadline for meeting these conditions. In making renewal decisions, every authorizer must base its choices on evidence of the school's performance during the term of the performance certificate.

If a public charter school has fulfilled all terms of its performance certificate, the authorizer shall renew the charter for a period of twelve years, or six years in the case of a pilot charter. Conversely, if the school has not met one or more of the requirements, the authorizer may either renew for a six-year term or choose not to renew the charter.

School Overview

School's Operating Term

In 2022, Kootenai Bridge Academy was renewed for operations with a five-year operating contract. The current certificate term is from July 1, 2022 to June 30, 2027. This report directly impacts the school's renewal recommendation. Renewal decisions must be made prior to March 15th, 2027.

2023-2024 Academic Outcomes

ELA and Math Proficiency

A school that performs as well or better than the average of its comparison group on the statewide ELA and mathematics assessment (ISAT) meets the IPCSC standard on both the ELA and math proficiency measures.

Comparison Group: Alternative Schools in Idaho

MEASURE	RATING	APPLICABLE RUBRIC DESCRIPTION
ELA PROFICIENCY	Approaches Standard	The school's proficiency rate falls between the average and one standard deviation below the average of the school's identified comparison group.
MATH PROFICIENCY	Does Not Meet Standard	The school's proficiency rate is more than one standard deviation below the average of the school's identified comparison group.

College & Career Readiness

A school with a 5-year graduation rate equal to or greater than the average of its comparison group meets the IPCSC standard.

2023-2024 Financial Outcomes

Near Term Measures

These measures evaluate whether a school is likely to meet its financial obligations in the next year. Data sources include but are not limited to the school's fiscal audit, state agency reporting, and school reporting requirements.

Measure	Value	Rating	Rubric Description
Current Ratio	50	Exceeds Standard	The school has a current ratio of more than 1.5.
Days Cash on Hand	1565	Exceeds Standard	The school has more than 60 days cash on hand.
Default	NONE	Exceeds Standard	The school has met standard for at least 3 consecutive years, including the most recently completed school year.

Current Ratio

The Current Ratio compares a school's short-term financial obligations (current liabilities) to its available cash and investments (current assets). A ratio greater than 1.0 indicates the school can meet its financial obligations for the next year without relying on future revenue, while a ratio less than 1.0 suggests the school depends on future revenue to cover its existing obligations.

Current Assets	Current Liabilities	Current Ratio
\$10,743,199	\$213,276	50

Days Cash on Hand

Days cash on hand measures how long a school can cover its operating costs using only available cash and investments. A school with at least 60 days cash on hand can meet immediate financial obligations, while 30-60 days is acceptable if improving. Less than 15 days indicates financial distress. Schools in their first or second year of operation must have a minimum of 30 days cash on hand.

Default

Default occurs when a school fails to meet its financial obligations, such as late bill payments, missed payroll, inaccurate funding reports, or failing to meet lender requirements like enrollment targets or cash reserves. Any default can lead to service disruptions, loans being called due, or withheld funding.

Sustainability Measures

These measures help determine whether a school is likely to remain financially stable into the future. Data sources include but are not limited to the school’s fiscal audit, state agency reporting, and school reporting requirements.

Measure	Value	Rating	Rubric Description
Debt Service Coverage Ratio	OPERATES DEBT-FREE	Exceeds Standard	The school's debt service coverage ratio is 1.5 or greater or the school operates debt-free.
Debt to Asset Ratio	.02	Exceeds Standard	The school has met standard for 3 consecutive years, including the most recently completed school year, or the school operates debt-free.
Financial Compliance	YES	Exceeds Standard	The school has met standard for at least 3 consecutive years, including the most recently completed school year.

Debt Service Coverage Ratio

Debt Service Coverage Ratio assesses a school's ability to cover annual debt payments using only that year's income. A Debt Service Coverage Ratio greater than 1 indicates the school can meet its debt obligations, while a ratio below 1 suggests reliance on reserves or future revenue to cover debt.

Table Calculation for a school that owns its facility or for a leased facility and the lease is capitalized

Net Income + Depreciation Expense + Interest Expense	Principal + Interest + Lease Payments	Debt Service Coverage Ratio
\$1,622,805	\$0	OPERATES DEBT-FREE

Debt to Asset Ratio

The Debt to Asset Ratio compares a school's total liabilities to its total assets, minus pension liability. This helps determine whether a school would be able to meet both its short and long-term financial obligations.

A school whose total liabilities are 90% or less of its Total Assets is likely to be able to repay all short-term debts and still manage to set its long-term affairs in order in a worst-case scenario. A school with more liabilities than assets would not be able to meet all its financial obligations in a worst-case scenario.

Total Liabilities, less pension liabilities	Total Assets, less pension assets	Debt to Asset Ratio
\$213,276	\$11,802,055	.02

Financial Compliance

The school's financial management adheres to Generally Accepted Accounting Principles (GAAP), ensuring that accounting practices are up to standard. Additionally, the internal controls in place are fully compliant with relevant regulations. Notably, the most recent financial audit confirmed that there were no issues or findings, reflecting a high level of accuracy and compliance.
