# Introduction

In Idaho, charter schools operate under contract terms specified in a Performance Certificate, which is agreed upon by the school's board and its authorizer, as outlined in I.C. §33-5205B. Each Performance Certificate includes a performance framework that outlines the expectations the school must meet to be granted a subsequent operational term. The annual performance report, based on this framework, serves the following purposes:

- To provide transparent information about charter school quality to the public;
- To ensure that charter school boards have clear expectations;
- To inform mid-term authorizing decisions.

The Idaho Public Charter School Commission (IPCSC) must assess whether the school's performance represents a favorable return on public funds. The IPCSC also considers the school's performance in comparison to other educational options available to families. The data in this report are derived from the previous fiscal year and summarize the outcomes of the school's last year of the contract term for those schools that are up for renewal.

If the performance standards are met, strategic planning may focus on the data points that will establish and sustain a high-performing school. If a standard is not met, the school should focus its strategic planning on improving outcomes to secure a subsequent operational term.

Please see the [Performance Framework](#) rubrics for details regarding how each measure is rated.

## **RENEWAL (I.C. §33-5209A)**

At the conclusion of the operating term, the performance certificate of each school is reviewed for renewal. Charters may be renewed for successive terms. An authorizer can grant renewal with specific written conditions aimed at improving the public charter school, along with a deadline for meeting these conditions. In making renewal decisions, every authorizer must base its choices on evidence of the school's performance during the term of the performance certificate.

If a public charter school has fulfilled all terms of its performance certificate, the authorizer shall renew the charter for a period of twelve years, or six years in the case of a pilot charter. Conversely, if the school has not met one or more of the requirements, the authorizer may either renew for a six-year term or choose not to renew the charter.

# School Overview

## School's Operating Term

In 2022, Idaho Technical Career Academy was renewed for operations with a five-year operating contract. The current certificate term is from July 1, 2022 to June 30, 2027. This report directly impacts the school's renewal recommendation. Renewal decisions must be made prior to March 15, 2027.

Governance Oversight	Meets Standard	No Issues

## Management

The systems and structures that support school operations are an important part of the school's overall success. The measures in this section help identify the strengths and challenges that impact the school's day-to-day operations.

Measure	Rating	Rubric Description
Student Services	Meets Standard	No Issues
Data Security and Information Transparency	Meets Standard	No Issues
Facility and Services	Meets Standard	No Issues

# 2024-2025 Financial Outcomes

## Near Term Measures

These measures evaluate whether a school is likely to meet its financial obligations in the next year. Data sources include but are not limited to the school's fiscal audit, state agency reporting, and school reporting requirements.

Measure	Value	Rating	Rubric Description
Default	None	Exceeds Standard	The school has met standard for at least 3 consecutive years, including the most recently completed school year.

### Default

Default occurs when a school fails to meet its financial obligations, such as late bill payments, missed payroll, inaccurate funding reports, or failing to meet lender requirements like enrollment targets or cash reserves. Any default can lead to service disruptions, loans being called due, or withheld funding.

Assets is likely to be able to repay all short-term debts and still manage to set its long-term affairs in order in a worst-case scenario. A school with more liabilities than assets would not be able to meet all its financial obligations in a worst-case scenario.
